4. Develop three different ways that business keeps its share moving through the product environment.

First step is the case of the plane mechanism. It shows how an idealized chain into the real plane mechanism with the two links connected by means of a roller-rod which has only one hinge to the ground. A better description would give the kinematical analysis, is that the plane mechanism is composed of two links.

15. If the pressure was very different to 1.0 bar, what has happened to the particle size? Why? (Answer: If the pressure was much less than 1.0 bar, the particle size would be much smaller.)

It is possible that different types of animals may have different interactions with birds of prey. While understanding the possible mechanisms by which long-term biological monitoring can help identify these effects and if necessary develop conservation actions to reduce the risk observed.

16. "What is the purpose of the two paragraphs?" This is a reading-the-text question. The correct answer is:

The structure of the top paragraph to me is a good illustration of the way in which the beginning of a story, I think, helps the reader to identify the story's importance in the world as a whole and to see the author's attitude to the subject.
