## Fall From Innocence Memoirs Of The Great Depression:

The Great Depression in Literature for Youth Rebecca L. Berg, 2004-11-17 No area of the United States was untouched by the Great Depression but the severity in which people experienced those significant years depended in large part on where in the nation they lived. While dust choked the life out of Americans in the plains apples grew in abundance in the Northwest. Unemployment driven poverty robbed urban dwellers of hearth and home while Upper plains farm women traded eggs and chickens like money. This bibliography describes the youth literature and relevant resources written about the Great Depression all categorized by geographical location. Students, educators, historians, and writers can use this book to find literature specific to their state or region, gaining a greater understanding of what the Great Depression was like in their locale. The Great Depression was a pivotal period in our nation's history. This annotated bibliography guides readers to biographies, oral histories, memoirs, and recollections; photograph collections; fiction and nonfiction books; picture books; international resources; and other reference sources. The Works Progress Administration (WPA) state guides are included as well as literature about the federal theater arts and music projects. A comprehensive listing of museums and state historical societies complement this reference. For readers interested in learning about the Great Depression, this is a must have resource.

A Flight Through Life - An Aviator's Memoir Albert J. DeGroote, 2013-04-10 A Flight Through Life begins with a boy growing up during World War II and records his youthful fascination with aviation. It follows his career in aviation from becoming a private pilot through his eventful life as an Aviation Cadet and his careers in both the Air Force and commercial aviation. Al DeGroote's captivating descriptions of his experiences give both pilots and non-pilots a feel for the excitement and wonder of flying while sharing with them the experience of being part of aviation's transition from the piston to the jet age. While aviation is the central theme of the narrative, Al's wide ranging experience in command and staff positions brings the non-flying reader into his life as a war planner, accident investigator, and international affairs specialist. As the U.S. Air Attaché at the embassy in Laos, he and his family experienced the tragedy of the fall of Southeast Asia first hand and he provides a ringside seat for the reader to observe the many blunders and few triumphs of that debacle.
