being published twenty two years ago is now available in a second edition containing new original research. Friendship expert, coach and sociologist Dr Jan Yager's prescriptive book on toxic friendships, what to do about them and how to find or improve the positive friendships we all deserve, also has an updated Preface, bibliography and resources section. The Preface shares Dr Yager's more recent research that asks the question, 'Have you ever had a friendship that made you physically or emotionally sick?'. She was surprised to find that such strong reactions were more common than she originally thought. Forty three percent of the ninety men and women she surveyed answered Yes to that question. In the new Preface, she shares their most common reactions. Another new feature of Dr Yager's classic book includes cartoons at the beginning of each chapter by artist Cathy Wilcox and originally done for the Australia New Zealand edition. When Friendship Hurts has helped countless men and women to better understand why they get involved in a toxic friendship and then explore possible ways to mend it, let it fade.
