Manuale di diritto privato Andrea Torrente, 1975 **La Nuova Giustizia Civile (02/2014)** Luca Tantalò, 2014-03-22
Bimestrale di diritto processuale civile diretto da Luca Tantalò Anno 1 Numero 2 marzo 2014 Esercitazioni di diritto privato Salvatore Di Blasi, 1986 **The Principles of European Contract Law** Ole Lando, 2023-09-29

An arbitrator has to decide a case under a contract to be governed by internationally accepted principles of law. A business person is negotiating a contract with a company in another EU state but neither party wishes to apply the law of the other party's country. A lawyer is advising parties to contracts involving parties in other States. An EU official is drafting a new Directive affecting contracts. A professor of law wants her students to gain a solid understanding of the way in which contracts are treated by the laws of the different Member States and to understand the common principles. All these need to know the fundamental principles of contract law shared by the legal systems of the Member States and to have a concise comprehensive and workable statement of them. The Principles of European Contract Law provides this. The Principles have been drawn up by an independent body of experts from each Member State of the EU under a project supported by the European Commission and many other organisations. The Principles are stated in the form of articles with a detailed commentary explaining the purpose and operation of each article and its relation to the remainder. A particularly valuable feature is that each article also has extensive comparative notes surveying the national laws and other international provisions on the topic. The Principles of European Contract Law Parts I II covers the core rules of contract formation authority of agents validity interpretation contents performance non performance and remedies. The articles previously published in Part I 1995 are included in a revised and re ordered form.

Justifying Strict Liability Marco Cappelletti, 2022-05-23

The imposition of strict liability in tort law is controversial and its theoretical foundations are the object of vigorous debate. Why do or should we impose strict liability on employers for the torts committed by their employees or on a person for the harm caused by their children animals activities or things. In responding to this type of questions legal actors rely on a wide variety of justifications. Justifying Strict Liability explores in a comparative perspective the most significant arguments that are put forward to justify the imposition of strict liability in four legal systems: two common law (England and the United States) and two civil law (France and Italy). These justifications include risk accident avoidance the deep pockets argument loss spreading victim protection reduction in administrative costs and individual responsibility. By looking at how these arguments are used across the four legal systems this book considers a variety of patterns which characterise the reasoning on strict liability. The book also assesses the justificatory weight of the arguments showing that these can assume varying significance in the four jurisdictions and that such variations reflect different views as to the values and goals which inspire strict liability and tort law more generally. Overall the book seeks to improve our understanding of strict liability to shed light on the justifications for its imposition and to enhance our understanding of the different tort cultures featuring in the four legal systems studied.
