This requires the promotion of local beneficiation and value addition of minerals to yield materials on which modern Africa's industry and society can rely. This book is therefore about transforming Africa's comparative advantages in minerals into the continent's competitive edge regarding materials. Mineral beneficiation and value addition form the basis and provide opportunities for mineral driven Africa's industrialization. The scope of the book is three fold with inter connected relationships Information Technical and Policy oriented. It will be a useful reference material for mining undergraduate students on beneficiation and value addition of each of the minerals found in Africa. The book while presenting a broad overview of beneficiation and value addition of Africa's minerals provides crucial starting material for postgraduate research students and R D institutions who wish to delve into more advanced methods of extraction and utilization of mineral derived materials that are in Africa for the purpose of industrialization of the continent *Applied Science and Precision Engineering Innovation* Chien Hung Liu, 2013-12-06 Selected peer reviewed papers from the International Applied Science and Precision Engineering Conference 2013 October 18-22 2013 Nan Tou Taiwan **Our Paper**, 1905 **Building Science Abstracts**, 1929 *Scientific American*, 1927 Monthly magazine devoted to topics of general scientific interest
