Humanism and Technology Anthony B. Pinn, 2016-11-23 This book interrogates the ways in which new technological advances impact the thought and practices of humanism. Chapters investigate the social, political and cultural implications of the creation and use of advanced forms of technology, examining both defining benefits and potential dangers. Contributors also discuss technology's relationship to and impact on the shifting definitions we hold for humankind. International and multi-disciplinary in nature and scope, the volume presents an exploration of humanism and technology that is both racially diverse and gender sensitive. With great depth and self-awareness, contributors offer suggestions for how humanists and humanist organizations might think about and relate to technology in a rapidly changing world. More broadly, the book offers a critical humanistic interrogation of the concept of progress, especially as it relates to technological advancement.

British Music Videos 1966 - 2016 Caston, Emily Caston, 2020-07-31 Based on new archival evidence and interviews and setting out a new theoretical framework for music video analysis, Emily Caston presents a major new analysis of music videos from 1966-2016, identifying not only their distinctive British traits but their parallels with British film genres and styles. By analysing the genre, craft and authorial voice of music video within the context of film and popular music, the book sheds new light on existing theoretical and historical questions about audiences, authorship, art and the creative industries. Far from being an American cultural form, the book reveals music video's roots in British and European film traditions and suggests significant ways in which British video has impacted popular film and music culture.
