Sociological Analysis Of Integration Of Non Citizens In Latvia:

Sociological Analysis of Integration of Non-Citizens in Latvia Inese Šūpule, Bebri a Iveta, Evija Klave, 2014-11-12 On 1st January 2014 13% or 282 876 people out of all Latvian population were former U S S R citizens who do not have the citizenship of the Republic of Latvia or that of any other country. Most often this group has been denominated as Latvian non citizens. The study gives an in depth understanding of the barriers and motivation of Latvian non citizens to naturalize or not and attitudes of non citizens towards living and integrating in Latvian society. The following dimensions of citizenship has been analysed: status of citizenship, citizenship as sense of belonging and practice of citizenship. The study involved the principles of participatory research approach. One of the main findings was on importance and positive feedback of discussions and dialogue among ethnic Latvians, Russians citizens and non citizens in Latvia. **EU Citizenship,**

Nationality and Migrant Status Kristīne Krūma, 2013-10-24 In EU Citizenship Nationality and Migrant Status An Ongoing Challenge Kristīne Krūma offers an account of the regulation of nationality at international EU and national Latvian levels. Growing global migration and multiple individual loyalties lead to a fusion of national identities traditionally preserved by the EU Member States. Dismantling national borders and granting directly effective rights to EU citizens broadens our understanding about belonging only to the limited territory of a single State. The primary focus is the status of the EU citizenship which has become a meaningful status capable of satisfying claims by citizens. The Latvian example shows that migrant status cannot be ignored because of the crucial role of migrants in the future construct of the EU. **Social Cohesion and Social Change in Europe** Gerard Boucher, Yunas Samad, 2017-10-02 Social cohesion has had different meanings for people depending on their background, their interests where they live in the world and at what time they lived. In the social sciences social cohesion is a term used to explain the social and cultural consequences of structural changes related to industrialization and modernity. In the European Union structural changes which relate to globalization, European integration, the restructuring of welfare states, ageing societies and transitions from communism have often led to more insecurity and material inequalities between people. Higher rates of immigration and issues related to the integration of migrants and their descendants have also led to anxieties about the preservation of national cultures and identities. This book argues that perceived crises in social cohesion in Europe have more to do with the consequences of structural change rather than the failure of multiculturalism and immigration. It looks at the relationship between social cohesion and social change in Europe focusing on the European Union as a whole and on urban areas such as Paris France and Bradford UK. This book was originally published as a special issue of Patterns of Prejudice. **State of the World's Minorities 2006** Richard Green, 2005-12-22 The way in which we treat minorities is the measure of civilization of a society. Mahatma Gandhi. In the era of globalization societies are becoming more diverse. Every country around the globe exhibits some ethnic, religious or cultural diversity. Instead of an asset to be celebrated however, governments too often treat this as a threat. States in every

world region repress the rights of their minorities or even deny their existence For some minorities or indigenous peoples their very survival is at stake In addition to the war in Iraq which remained the focus of intense media attention over 20 further major armed conflicts were ongoing in other parts of the world in 2005 as well as a range of lower intensity conflicts In three quarters of these armed conflicts violence was targeted at specific ethnic or religious groups Yet many of these conflicts could have been prevented if minority and indigenous rights had been respected This first edition of the State of the World s Minorities looks at key developments over the last year affecting the human rights and security of ethnic religious or linguistic minorities and indigenous peoples It includes a Preface by the UN Special Adviser on the Prevention of Genocide Juan E M ndez analysis of trends and legal developments by leading authorities on minority rights an overview by world region highlighting main developments and areas of concern statistical data on Peoples under Threat 2006 ratification tables for the main minority rights treaties and extracts from recently concluded treaties This major new reference work provides an objective analysis of how minorities and indigenous peoples are treated around the globe and with it a measure of the civilization of our societies
