## **Method And Madness:**

Novel Sociological Methods and Practices of Engagement across Disability Communities Danielle Landry, Hannah Morgan, Temba Middelmann, Karen Soldatic, Robel Abay, 2025-11-12 Carol Thomas seminal work on the contested relations of and between the sociologies of health illness and disability has resulted in a plethora of critical insights into disabled people's sense of socio political identity This includes a growing body of critically engaged scholarship that has demonstrated the significance of working across interdisciplinary frames and transnational geographies in addition to criping research practices in studies of the everyday experiences of disabled people and community members who live with longstanding chronic illnesses and un diagnosed health conditions This research has to date enriched the disability sociological imagination generating new insights and potential alliances that are necessary to build mobilize and sustain crosscutting communities of wellbeing This Research Topic aims to explore innovative methods in sociological research that distill shared and mutually constitutive practices of wellbeing for disabled people and community members that live across the continuum of disability health identities Research that seeks to connect the lived experiences of uniquely marginalized people with wider patterns of local and global inequity and relations of exclusion offers opportunities to advance goals of disability justice and improve accessibility in research work healthcare delivery advocacy and beyond Centering disability in sociological methods has the potential to expose inequities and disrupt normative standards systems and practices By exploring the intersection of sociology disability studies and other schools of thought and activism this Research Topic will provide new empirical and methodological insight into interdisciplinary scholarship and collaborative action The Research Topic aims to contribute to decentering the Global North in health and disability research and advocacy by incorporating insight from the Global South Scholars from the Global South and research focused on transnational connections are encouraged We invite empirical analytic or theoretical papers exploring emerging sociological methods and practices of engagement across diverse disability communities noting how communities of care are often transnational We encourage generous and generative understandings of disability and seek contributions from scholars and community based researchers in sociology disability studies political science science and technology studies anthropology Mad studies Deaf studies and other disciplines that are considering these connections This Research Topic welcomes critical and situated contributions from all geographies especially including disabled scholars scholars in the Global South and transnational collaborations towards more equitable global knowledge production Submissions on various themes are encouraged including Interdisciplinary ruptures or points of convergence in methodologies related to disability health and illness Criping research methods and modes of analysis Innovations in research accessibility Reflections on a disability lens for sociological methods Diverse disability identities and practices of community engagement Technological advancements in research engagement and dissemination Karen Soldatic Danielle Landry and Temba Middelman are funded and supported by the Canada Excellence Research Chair in Health Equity and

Community Wellbeing at Toronto Metropolitan University     Using Computers in Qualitative Research Nigel G. Fielding Raymond M. Lee, 1991-04-30 This is a comprehensive assessment of recent developments in the use of computers in qualitative research an increasingly important and rapidly growing area of interest among social scientists and graduate students Using Computers in Qualitative Research profiles and compares the principal programs available identifying their particular strengths and limitations It outlines the sorts of research problems that existing and forthcoming software can and cannot handle The contributors also draw on their experiences of teaching computer based techniques to suggest ways in which these could be incorporated into research methods training Reprinted with updated information on computer resources 1992

**Cross-National Research Methodology and Practice** Linda Hantrais, Steen Mangen, 2013-09-13 Cross National Research Methodology and Practice offers practical guidance for relative newcomers to cross national research by analysing and evaluating the research process by focusing strongly on best practice in terms of methods and management It raises a number of important issues for cross national research which have been given insufficient attention in discussions of methods and practice The volume contains reflexive and theoretically based pieces on the development of contextualization as an approach to cross national comparative research on qualitative and quantitative methods extending to the integration of different methodological approaches The volume includes practical examples of cross national research projects which illustrate different methods ranging from biographical and documentary approaches the collection and analysis of socio demographic and attitudinal survey data either carried out by lone researchers or teams of researchers the exploration of internet sources and application of computer analysis to quantitative and qualitative data This collection provides a firm emphasis on methodological issues relating to context values and discourse
