

A Step-By-Step Guide to

Using Your Dishwasher the Right Way

1 | Clean food residue

Large food particles can clog the dishwasher filter so scrape them off with a spoon before loading your dishes.

2 | Load dishes correctly

Place dishes upside down so that water slips off their surface easily. For optimal washing, ensure spray arms can rotate freely and avoid overlapping crockery.

3 | Place larger and soiled crockery into the bottom basket

Place large pots, pans and heavily soiled crockery in the bottom basket as it receives a more intensive wash than the top basket.

4 | Use dishwasher detergent tablets and rinse aid

For liquid or loose powder dishwashing detergent, check the manual for recommended dosage to avoid overdosing or underdosing. Use rinse aid solution for even drying of dishes.

5 | Use the correct wash programme and options

Depending on how soiled your dishes are, you can configure your dishwasher to have a shorter running time, dry dishes better or provide a perfect clean for infant milk bottles. Always check the manual for detailed instructions.
