### Wash Plus system

The Wash Plus system brings the equivalent of an A-class wash performance to a wider range of temperatures than ever before. Unlike most washing machines on the market, Bosch machines now deliver the equivalent of an A-class performance not only at 60°C but at 40°C and 30°C as well.

### Freshen Up

This handy feature gives clothing the lightest of washes without using any detergent – particularly useful for freshening up stored clothes or eliminating the smell of cigarette smoke from lightly worn clothes. It cuts down on

### 3D Aquadrip wash system

A wash and shower system for optimum washing results. Water enters the drum from three sides for quick and effective distribution. During the cycle specially designed paddles scoop up the water gently bathing the wash load, ensuring gentle washing and optimum usage of the water in the drum.

### Cold fill

Your machine will take in cold water and heat up just what it needs. These days most programmes are 40°C and detergents are now designed to start working at lower temperatures. Machines which work with ready-heated water actually miss out on some of the cleaning process due to this change in detergent design. Cold fill saves energy while delivering first-class performance.

### APlus energy efficiency

All our washing machines deliver an A rated wash performance, while using over 50% less energy than required for A rated energy efficiency. Look out for the APlus logo next to these super-efficient models.
