is present with all computer users This book is intended to educate the average and experienced user of what kinds of different security practices and standards exist It will also cover how to manage security software and updates in order to be as protected as possible from all of the threats that they face

When disaster strikes... A guideline to business continuity awareness Patrick Hermann,2008-05-19 Diploma Thesis from the year 2006 in the subject Business economics Business Management Corporate Governance grade 2 0 N rtingen University BWL language English abstract When there is a crisis the crisis has to be managed was once said by Gerhard Schr der the former German Chancellor In actual disaster situations it is not as easy to handle the crisis and just manage it you better be prepared When disaster strikes these incidents cannot usually be handled with the organizational structures and resources provided for normal everyday business and therefore require a business continuity plan As we have experienced an increasing number of disaster events over the recent years big and dramatic events like the World Trade Center terrorist attack of 9 11 the Madrid and London train bombings earthquakes in Pakistan hurricanes in North America or the Southeast Asia tsunami which were highly recognized in the media all over the world But at the same time there have been also large number of disasters at a less recognized level like fires flooding building crush down and so forth All these events have one thing in common They can put a company out of business To prevent that we are not prepared to respond these disaster events we need to have a plan But planning for an event can only be the first step next we need to implement these plans in our organization and make communicate it to ensure that every employee knows what to do and how to react in a disaster event Many organizations fail to actually implement a BCP program because of the perception that it is a process that is too costly time consuming and requires a large amount of resources Therefore the management must be assured that by investing in BCP the organization s life gets protected and that it makes good business sense

Business Continuity Planning Ken Doughty,2000-09-11 Once considered a luxury a business continuity plan has become a necessity Many companies are required to have one by law Others have implemented them to protect themselves from liability and some have adopted them after a disaster or after a near miss Whatever your reason the right continuity plan is essential to your organization *Business Continuity Planning Protecting Your Organization s Life* explains how to evaluate your current plan for completeness create an effective plan if you don t have one and ensure it remains up to date From fires floods and power outages to hackers and software problems companies need to protect against a variety of threats *Business Continuity Planning Protecting Your Organization s Life* takes a best practices approach to provide a comprehensive continuity solution It details how to build a plan to handle business disruptions keep vital operations up and running and prevent losses that occur when business is crippled or security is compromised
