All investments have some risk.

Define investment risk: Possibility that an investment will fail to pay the expected return

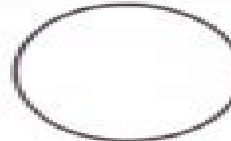

Investments are important to building wealth.

Why are investments less liquid than savings tools? Investments may not be easily converted into cash, or you may have to pay a penalty to do so

Investments are for long-term goals.

Two examples of long-term goals are: Buying a Home, Higher Education

Rate of return: Total return on investment expressed as a percentage of the amount of money invested
