Schermerhorn,Robert F. Hartley,1995-11-01 A Companion to Business Ethics Robert E. Frederick,2008-04-15 In a series of articles specifically commissioned for this volume some of today s most distinguished business ethicists survey the main areas of interest and concern in the field of business ethics Sections of the book cover topics such as the often easy relation between business ethics and capitalism the link between business ethics and ethical theory how ethics applies to specific problems in the business world the connection between business ethics and related academic disciplines and the practice of business ethics in modern corporations Includes extensive accessible discussion of all of the main areas of interest and debate in business ethics Features all original contributions by distinguished authors in business ethics Includes an annotated table of contents bibliographies of the relevant literature and a list of internet sources of material on business ethics Perfect comprehensive book for use in business ethics courses *Managing in the Media* William Houseley,Tom Nicholls,Ron Southwell,2013-04-26 Managing in the Media has been devised for a broad audience It is based upon the perceived need for a text that amalgamates cultural theories film and television analysis management theories and media production practice into one volume There are many books on film and cultural studies Similarly there are copious numbers of texts written on management To date little has been written that analyses the management of the audiovisual industry set against the backdrop of the cultural and economic environment within which the media manager operates Managing in the Media is divided into three sections that take the reader from the global to the specific from the strategic to the tactical Each chapter discusses specific topics that can be read in isolation yet contribute to the theme within each part Taken as a whole the book provides the potential professional media manager and current practising media manager with a framework of issues that will give them an awareness of the range of knowledge needed by the successful media manager This book does not try to be a manual to success The media industry is awash with successful individuals none of whom needed textbooks to set them on their chosen career paths Yet these exceptional people prove the rule that in the main most media practitioners would benefit from some additional support and guidance The aim of this book is to present to them some of the management issues that have or will have an impact upon their working careers The accompanying website [www mediaops net](http://www.mediaops.net) which can also be accessed via [www focalpress com](http://www.focalpress.com) features Tutor notes and reader activities Updated list of further reading Additional support material such as production templates Interviews with the authors A discussion forum Industry and education links
