The Age of Fable Thomas Bulfinch, E. E. Hale, 2014-07-11 Bulfinch's *Mythology* *The Age of Fable* by Thomas Bulfinch. Bulfinch's *Mythology* is a collection of general audience works by Latinist and banker Thomas Bulfinch named after him and published after his death. The work was a highly successful popularization of Greek mythology for English speaking readers. Carl J. Richard comments that it was one of the most popular books ever published in the United States and the standard work on classical mythology for nearly a century until the release of classicist Edith Hamilton's 1942 *Mythology: Timeless Tales of Gods and Heroes*. The book is a prose recounting of myths and stories from three eras: Greek and Roman mythology, King Arthur legends and medieval romances. The stories are interspersed with his own commentary and with quotations from the writings of Bulfinch's contemporaries which contain a reference to the story under discussion. This combination of classical elements and modern literature was novel for his time. Bulfinch expressly intended his work to be for the general reader. In the preface to *The Age of Fable* he states: "Our work is not for the learned nor for the theologian nor for the philosopher but for the reader of English literature of either sex who wishes to comprehend the allusions so frequently made by public speakers lecturers essayists and poets and those which occur in polite conversation." Bulfinch originally published his work as three volumes: *The Age of Fable or Stories of Gods and Heroes* published in 1855, *The Age of Chivalry or Legends of King Arthur* published in 1858 and *Legends of Charlemagne or Romance of the Middle Ages* published in 1863. The original three volumes were later combined into a single volume titled *Bulfinch's Mythology*. Now in the public domain multiple editions of the combined work are still in print more than 150 years after the three books were published.
