how simple school lunches used to be You d have something from every major food group run around the playground for a while and you looked and felt fine But today it s not so simple Schools are actually feeding the American crisis of childhood obesity and malnutrition Most cafeterias serve a veritable buffet of processed fried and sugary foods and although many schools have attempted to improve they are still not measuring up 78 percent of the school lunch programs in America do not meet the USDA s nutritional guidelines Chef Ann Cooper has emerged as one of the nation s most influential and most respected advocates for changing how our kids eat In fact she is something of a renegade lunch lady minus the hairnet and scooper of mashed potatoes Ann has worked to transform cafeterias into culinary classrooms In *Lunch Lessons* she and Lisa Holmes spell out how parents and school employees can help instill healthy habits in children They explain the basics of good childhood nutrition and suggest dozens of tasty home tested recipes for breakfast lunch and snacks The pages are also packed with recommendations on how to eliminate potential hazards from the home bring gardening and composting into daily life and how to support businesses that provide local organic food Yet learning about nutrition and changing the way you run your home will not cure the plague of obesity and poor health for this generation of children Only parental activism can spark widespread change With inspirational examples and analysis *Lunch Lessons* is more than just a recipe book it gives readers the tools to transform the way children everywhere interact with food
