This book is a general introduction to managing a small business. The book is meant to be a general and simplified introduction to the subject matter. This book treats small business management as a practical human activity rather than as an abstract theoretical concept. The hope is to teach concepts that can be immediately applied to real world experiences and case studies. This book incorporates the use of technology and e business as a way to gain a competitive advantage over larger rivals. Technology is omnipresent in today's business world and small businesses must use it to their advantage. Practical discussions and examples of how a small business can use these technologies without having extensive expertise or expenditures are found within the readings. Cash flow is extremely important to small businesses. This book explicitly acknowledges the constant need to examine how decisions affect cash flow by incorporating cash flow impact content. As the lifeblood of all organizations, cash flow implications must be a factor in all business decision making. Finally, this book recognizes the need to clearly identify sources of customer value and bring that understanding to every decision. Decisions that do not add to customer value should be seriously reconsidered.

The Scientification of China Zhaohao Sun, Paul P. Wang, 2021-10-19. This book provides a novel strategic solution to where China will go in the coming decades, utilising the common interest shared by Chinese people and people from other countries to realize the common dream of all of mankind. It investigates the scientification of China: Chinese words, the Chinese language and Chinese culture based on 10 scientific paradigms. Scientific Chinese words, scientific Chinese language and scientific Chinese culture form what is termed here as the scientific Chinese trinity, which will create a scientific China in the near future and facilitate the scientification of Chinese society and the development of the digital economy. The book will serve to convey to students, scholars, professionals, managers and practitioners the status of the evolution of Chinese culture and civilization.
