Work Pause Thrive Lisen Stromberg, 2017-01-31 We worry putting our family first means we'll be forced to abandon our careers We're afraid if we pause our careers we'll be forever off track This thinking is outdated forget what you've heard about how pauses are career limiting about how those who pause lack ambition or that if you do pause you

won't be able to re-enter the paid workforce. That's a flawed reality, one that doesn't reflect the truth of the careers of some of the most successful women in this country. Author Lisen Stromberg knows this success firsthand. After the birth of her second child, she did something she never imagined she would do: she opted out to focus on her family. But her career didn't end there. Lisen paused, then pivoted to become first a social entrepreneur and then an award-winning journalist writing about women work and life in Silicon Valley. Along the way, she learned she wasn't alone. Lisen met many highly successful women who told her they never opted out but who had, in fact, temporarily downshifted or paused their careers. Their hidden journeys revealed alternative nonlinear paths to the top that enabled them to achieve their personal and professional goals. In *Work PAUSE Thrive*, Lisen shares their stories. Deeply rooted in social science research, cutting-edge data collected from nearly 1,500 women and through 186 first-person interviews, this book reveals how trailblazing women have disrupted the traditional career paradigm. What worked for them can work for you. In this book, you'll learn who pauses, how they do it, and why. How pausing can enrich both your career and your life. How to innovate your own nonlinear career path. What we can and need to do as a society to make it possible for more people to achieve their personal and professional goals. *Work PAUSE Thrive* also reveals new and exciting trends in the workplace and offers targeted solutions for companies to help ensure they have cultures that will enable you to lead the life you want: a life in which you can build both a career and a family and ultimately your own version of a life well lived.

Vote Her In Rebecca Sive, 2018-10-16. Men are not the enemy, but they are the problem. Women are wildly underrepresented at every level of the US government, federal, state, and local. Research has shown that women in legislative and executive political positions are far more likely than men to commit to policies that benefit women and girls of all kinds, so after centuries of underrepresentation, it's clear our best bet for creating a system that is more fair, balanced, and just for everyone is electing our first Madam President. Donald Trump's election didn't mean defeat, and his policies targeting women have not silenced them. Instead, women across the country have been motivated to speak out louder than ever before. There is no more powerful example of this than the Women's March of 2017, held just one day after Trump's inauguration, which was a worldwide catalyst for ongoing change and a vehicle for systemic empowerment that hasn't stopped since. *Vote Her In* is organized around the inspirational messages seen in protest signs carried at those record-breaking marches. Part One outlines the case for why we need to mobilize now, and Part Two provides a clear strategy for how to get there with 13 tractable actions that women from all backgrounds can take to help get each other or themselves into executive political offices and work toward electing our first woman president in 2020. In *Vote Her In*, author Rebecca Sive has leveraged her decades of political experience to give practical guidance not just to women seeking political office themselves but to all women regardless of their prior exposure to political outreach and activism who have come together to take action in the wake of Trump's election. This crucial book empowers every American man, woman, and girl who cares about our nation's democratic future to join forces and harness their collective power in the run-up to 2020 and, at last, to

form a more perfect union It s easy to feel angry but much harder to do something about it Sive shows us how **Broad Influence** Jay Newton-Small,2016 Jay Newton Small one of the nation s most deeply respected and sourced journalists takes readers through the corridors of Washington D C the offices and hallways of Capital Hill and everywhere else conversations and deals are happening to demonstrate how women are reaching across the aisles coalescing and affecting lasting change
