Counterpractice Rakhee Balaram, 2022-03-08 Counterpractice highlights a generation of women who used art to define a culture of experimental thought and practice during the period of the French women's movement or Mouvement de Libération des Femmes 1970-81. It considers women's art in relation to some of the most exciting thinkers to have emerged from the French literature and philosophy of the 1970s: Hélène Cixous, Luce Irigaray and Julia Kristeva, forcing a timely reconsideration of the full spectrum of revolutionary practices by women in the years following the events of May 68. Lavishly illustrated with over 200 images, the book also features an illuminating foreword by art historian Griselda Pollock.

Orient-express Magazine, 1994 **Photo-texts** Andy Stafford, 2010-01-01 What do photographs want? Do they need any accompaniment in today's image-saturated society? Can writing inflect photography or vice versa in such a way that neither medium takes precedence? Or are they in constant inexorable battle with each other? Taking nine case studies from the 1990s French-speaking world from France, North Africa and the Caribbean, this book attempts to define the interaction between non-fictional written text, caption, essay, fragment, poem and photographic image. Having considered three categories of intermediality between text and photography: the collaborative, the self-collaborative and the retrospective, the book concludes that the dimensions of their interaction are not simple and two-fold: visuality versus textuality but threefold and therefore complex. Thus the photo-text as defined here is concerned as much with orality, the demotic, the popular, the vernacular as it is with visual and written culture. That text-image collaborations give space to the spoken, spectral traces of human discourse suggests that the key element of the photo-text is its radical provisionality. *The Unesco Courier*, 1975-05 Photography and social movements Antigoni Memou, 2018-02-28 Now available for the first time in paperback, *Photography and social movements* is the first thorough study of photography's interrelationship with social movements. Focusing on photographic production and dissemination during the student and worker uprising in Paris in May 1968, the Zapatista rebellion and the anti-capitalist protests in Genoa in 2001, the book argues that at times of political uprisings, photographic documentations often contradictorily strive to prevail in the public domain, extending the political or economic struggle to a representational level. Photography plays a central role in this representational conflict by either reproducing or challenging stereotypical narratives of protest. This groundbreaking interdisciplinary analysis of a wide range of practices, amateur and professional, and of previously unpublished archival material will add considerably to students, researchers and scholars' knowledge of both the visual imagery of political movements and the developing history of photographic representation. **Library of Congress Catalog** Library of Congress, 1965 A cumulative list of works represented by Library of Congress printed cards **A Certain Idea of France** Julian Jackson, 2018-06-18 A SUNDAY TIMES THE TIMES DAILY TELEGRAPH NEW STATESMAN SPECTATOR FINANCIAL TIMES TLS BOOK OF THE YEAR Masterly, awesome reading, an outstanding biography. Max Hastings, Sunday Times The definitive biography of the greatest

French statesman of modern times In six weeks in the early summer of 1940 France was over run by German troops and quickly surrendered The French government of Marshal P tain sued for peace and signed an armistice One little known junior French general refusing to accept defeat made his way to England On 18 June he spoke to his compatriots over the BBC urging them to rally to him in London Whatever happens the flame of French resistance must not be extinguished and will not be extinguished At that moment Charles de Gaulle entered into history For the rest of the war de Gaulle frequently bit the hand that fed him He insisted on being treated as the true embodiment of France and quarrelled violently with Churchill and Roosevelt He was prickly stubborn aloof and self contained But through sheer force of personality and bloody mindedness he managed to have France recognised as one of the victorious Allies occupying its own zone in defeated Germany For ten years after 1958 he was President of France s Fifth Republic which he created and which endures to this day His pursuit of a certain idea of France challenged American hegemony took France out of NATO and twice vetoed British entry into the European Community His controversial decolonization of Algeria brought France to the brink of civil war and provoked several assassination attempts Julian Jackson s magnificent biography reveals this the life of this titanic figure as never before It draws on a vast range of published and unpublished memoirs and documents including the recently opened de Gaulle archives to show how de Gaulle achieved so much during the War when his resources were so astonishingly few and how as President he put a medium rank power at the centre of world affairs No previous biography has depicted his paradoxes so vividly Much of French politics since his death has been about his legacy and he remains by far the greatest French leader since Napoleon

La Revue du Louvre et des musées de France ,1999 **Picturing the Maghreb** Mary B. Vogl,2003 Picturing the Maghreb critiques photographic and verbal representations with a focus on four of the most prominent French language writers of recent years Michel Tournier J M G Le Cl zio Tahar Ben Jelloun and Le la Sebbar Their activist writing reframes a picture of Maghreb produced by two centuries of Orientalist misrepresentation The book explores photography as a metaphor for other sorts of representation and examines the cultural impact of actual photographs
