Internet Marketing Research: Theory and Practice Lee, Ook, 2000-07-01 Internet marketing has become an important issue for many businesses around the world which have any form of commercial presence on the net It is often perceived that doing business on the Internet mostly requires competency in the technology area However as many dot com companies are failing due to lack of revenue generation which could be induced by the inadequate marketing and marketing research practitioners and scholars of e commerce are keen to obtain a better understanding of the whole phenomenon of Internet marketing To understand what s working as an Internet marketing strategy or tactic one needs to conduct marketing research using rigorous statistical methodology *2017 Report to Congress of the U.S.-China Economic and Security Review Commission, November 2017, 115-1*, 2018

Online-Marketing Julia Erbe, 2000-01-03 Inhaltsangabe Abstract In the 1990s people are being more and more confronted with the rapid developments in the information and communication technology sector Computers seem to be indispensable not only in professional areas of life but also in educational and private contexts The Internet which started as a small network of students academics and researchers has developed into a global network linking millions of people in countries all over the world This enormous increase in information flow which is facilitated by Internet services such as the World Wide Web WWW electronic mail e mail or Usenet news appears to have an influence on communication processes and on the way in which we use language The fact that the new media are becoming more and more popular has also been realised by marketing specialists Due to the large number of users and the enormous growth potential of the Internet the sector of electronic commerce is booming The formerly anti commercial values of the original Internet community seem to have drastically changed Today electronic commerce is a rapidly growing area and numerous companies are beginning to position themselves on the information superhighway in

terms of providing hardware software information content or services Because of the fact that the Internet presents a fundamentally different environment for marketing activities than traditional media conventional marketing communications need to be transformed in order to meet the requirements of such an information intensive medium On the Internet the search for and the acquisition of relevant information for example takes up a great deal of time since there is no general index of all existing Internet sites and services As a consequence companies have to find other ways of drawing the users attention to their offers One means of achieving that goal might be the distribution of commercial e mails Commercial e mails can be classified as a form of advertising which is considered to be a type of persuasive discourse Due to the fact that advertisers are supposed to be striving to alter behaviour awareness knowledge and attitudes in a way that would be beneficial to them advertising is informative only on the surface Therefore no more distinction between informative and persuasive advertising is made Accordingly commercial e mails are expected to have a persuasive intent which is assumed to be mirrored in a number of

Harnessing the Power of Social Media and Web Analytics Ayanso, Anteneh, Lertwachara, Kaveepan, 2014-02-28 Social media has opened several new marketing channels to assist in business visibility as well as provide real time customer feedback With the emergence of new internet technologies businesses are increasingly recognizing the value of social media and web presence in the promotion of their products and services *Harnessing the Power of Social Media and Web Analytics* documents high quality research to empower businesses to derive intelligence from social media sites These emerging technological tools have allowed businesses to quantify understand and respond to customers conversations about their corporate reputation and brands within online communities This publication is ideal for academic and professional audiences interested in applications and practices of social media and web analytics in various industries *1997 Report Summaries Collection*, 1997
