Owner's Manual

A Note About Safety

Any time you see this symbol , its message, instructions and on the unit, be aware of the potential for personal injury.

WARNING: signifies hazards that could result in personal injury or death.

CAUTION: is used to identify unsafe practices which could result in minor personal injury or product and property damage.

NOTE: is used to highlight suggestions which will result in enhanced safety, reliability, or operation.

WARNING

PERSONAL INJURY, DEATH AND/OR PROPERTY DAMAGE HAZARD

Failure to follow this warning could result in personal injury, death or property damage.

Improper installation, adjustment, alteration, service, maintenance, or use can cause explosions, fire, electrical shock, or other conditions which may cause personal injury, death and/or property damage.

Consult a qualified Bryant installer for assistance.

The qualified installer or service agency must use factory-authorized parts or accessories when modifying this product.

Read and follow all instructions and warnings, including labels shipped with or attached to unit before operating your new air conditioner.

About Your Air Conditioning System

Our products are designed, tested and built in accordance with U.S. Department of Energy standardized procedures and other standards; however, actual operating results and efficiencies may vary based on manufacturing and supplier tolerances, equipment configuration, operating conditions and installation practices.

Identifying Your System

Your new Bryant cooling system is what we call a "split system." It has an outdoor unit and an indoor unit connected to each other with copper tubing called refrigerant lines. Each of these units has a rating plate with the model and serial number on it. You will need these numbers when calling an authorized Bryant dealer about your system.

Using Your New Bryant System

Your Bryant air conditioning system is controlled by a wall-mounted Evolution Control installed inside your home. See the Evolution Control Homeowner's Guide for more details on system operation.

Evolution Variable Speed Operation

You may notice your system runs for longer periods of time. This system is designed to meet the cooling needs of the home in a wide range of conditions. Your indoor temperature will remain more consistent with fewer drafts, better humidity control, enhanced comfort and enhanced energy efficiency.

Cooling Your Home

For cooling operation, make sure the System on Mode control is set to the appropriate mode, then adjust the Temperature control to your desired setting. Finally, use the Fan control to select Automatic or On (continuous).

Operation Under Extreme Conditions

Your air conditioner will run as long as necessary to maintain the indoor temperature selected on your Evolution Control or thermostat. On extremely hot days, your air conditioner will run for longer periods of time than on moderate days. Your system will also run for longer periods of time under the following conditions:

- Frequent opening of exterior doors
- Operating laundry appliances
- Taking hot showers
- More than the usual number of people present in the home
- More than the normal number of electric lights in use
- Drapes or blinds are open on the sunny side of the home.

Sound

Your new variable speed air conditioner is different from most cooling systems. Because this is a variable speed system, it is designed to operate at varying speeds depending on the temperature and humidity conditions. You may notice the sound coming from the outdoor unit changing from time to time depending on the weather conditions. The higher speed produces a higher sound. This change of speed allows the system to operate more efficiently and maintain comfortable conditions inside the home as the outdoor temperature rises. These sound variations are normal and do not represent a problem with your system.

ROUTINE MAINTENANCE

WARNING

ELECTRICAL SHOCK HAZARD

Failure to follow this warning could result in personal injury or death. Before installing, modifying, or servicing system, make certain the main electrical disconnect switch is in the OFF position.

There may be more than 1 disconnect switch. Look out and tag switch with a suitable warning label.

NOTE: There may be more than one electrical disconnect switch.

CAUTION

CUT HAZARD

Failure to follow this caution may result in personal injury.

Although special care has been taken to minimize sharp edges in the construction of your unit, be extremely careful and wear appropriate protective clothing and gloves when handling parts or reaching into the unit.
