*Militant Normals* Kurt Schlichter, 2025-04-08 *Militant Normals* written by one of the conservative movement's wittiest commentators is a no holds barred takedown of the preening elites who have all but made normalcy a crime in America Donald Trump is only the beginning of a mighty disruption in American politics and culture thanks to the rise of the militant Normals in America They built this country they make it run and when called on they fight for it They are the heart and soul of the United States of America They are the Normals the regular Americans of all races creeds preferences and both sexes who just want to raise their families and live their lives in peace And they are getting angry For decades they have seen their cherished beliefs and beloved traditions under attack They have been told they are racist sexist and hateful but it was all a lie Their ability to provide for their families has been undermined by globalization with no consideration of the effects on Americans who did not go to Harvard and who live in that vast forgotten space between New York and Santa Monica A smug condescending elite spanning both established parties has gripped the throat of the nation Convinced of their own exquisite merit while refusing to be held accountable for their myriad failures these elitists managed to suppress the first rumblings of discontent when they arose in the form of the Tea Party But they were stunned when the Normals did not simply scurry back to their flyover homes Instead the Normals came out in force and elected Donald Trump Now as the ruling caste throws everything it can into the fight to depose Donald Trump and reestablish unchallenged control the Normals face a choice They can either surrender their country and their sovereignty or they can become even more militant

**Gonzo Governance** David L. Altheide, 2022-10-24 Drawing on social science and communications theory *Gonzo Governance* offers a new interpretation of presidential power that shifts focus to the media dynamics that surrounded Donald Trump The former president's unhinged behavior and skilled media and digital manipulations changed the nature and process of significant governance at the federal and state levels including denying election results and restricting voting opportunities He went Gonzo promoting himself without regard for conventional norms and practices and blasted ideological fault lines into explosive political fragments resulting in so much dissensus that numerous legislators would not recognize the newly elected President Biden nor would

they agree to take a potential life saving vaccine because it had been associated with a politicized virus COVID 19 Nurtured by media logic and a communications ecology that has wedded people to digital technologies and formats that govern the structure grammar form expectations and meanings of messages that can entertain enlighten and disinform this form of governance alters the fundamental way that information is communicated David L Altheide emphasizes how these changes informed Donald Trump s electoral strategies as well as the insurrection attempt on the U S Capitol on January 6 2021
