50 Fantastic Ideas Inspired by Famous Artists Judith Harries, 2019-07-11 _____ The 50 Fantastic Ideas series is packed full of fun original skills based activities for Early Years practitioners to use with children aged 0-5. Each activity features step by step guidance, a list of resources and a detailed explanation of the skills children will learn. Creative, simple and highly effective, this series is a must have for every Early Years setting. 50 Fantastic Ideas Inspired by Famous Artists uses well known art as a visual inspiration to develop expressive art and design skills in the Early Years. It is much easier now to access art online and to bring inspirational pieces into a setting without having to buy postcards or visit an art gallery. Drawing on these readily available online sources, Judith Harries presents 50 ideas featuring a range of diverse artists from Lubaina Himid and Friedensreich Hundertwasser to Mary Delany and Picasso and famous art including pop and street art, sculpture and portraiture. Using art supplies easily found in and outside the classroom such as paints, clay, pipe cleaners and natural resources like leaves and flowers, the interactive activities found in this book are ideal for inspiring creativity and fun at the same time.

Food and Landscape: Proceedings of the 2017 Oxford Symposium on Food and Cookery Mark McWilliams, 2018-07-01 The proceedings of the 2017 Oxford Symposium on Food and Cookery includes 43 essays by international scholars. The topics included agro ecology, food sovereignty and economic democracy in the agricultural landscape, argued by Colin Tudge, James Rebanks on family life as a hill farmer in the Lake District and many talks that illustrate Catalan historian Josep Pla's axiom that 'Cuisine is the landscape in a saucepan'. *Development and Sustainability* Alberto Cima Damore, Maurice Mittelmark, Gro Theres Lie, Fungisai P. Gwanzura Ottemöller, 2016-03-15 While the need for effective action toward a greener and socially inclusive economy has long been evident, health promotion in the context of sustainable development has faltered. Arguing that human health is the key factor to sustainable development, *Development and Sustainability* promotes a fresh transdisciplinary approach to the eradication of extreme poverty. This ground breaking book calls for new forms of cooperation which cross the traditional boundaries between social activism and science and which are capable of harnessing the complex knowledge that such radical change requires. The contributions bridge the gap between those working for health and those working for sustainability, science and the green economy through developing the methodological and scientific means to deal with some of the most critical issues faced by humanity in the twenty first century.

A Water Story Geoff Beeson, 2020-02-03 Freshwater scarcity is a critical challenge with social, economic, political and environmental consequences. Water crises in Australia have already led to severe restrictions being applied in cities, drought ravaging farmlands and the near terminal decline of some rivers and wetlands. *A Water Story* provides an account of Australian water management practices set against important historical precedents and the contemporary experience of other countries. It describes the nature and distribution of the country's natural water resources, management of these resources by Indigenous Australians, the development of urban water supply and support for pastoral

activities and agricultural irrigation with the aid of case studies and anecdotes This is followed by discussion of the environmental consequences and current challenges of water management including food supply energy and climate change along with options for ensuring sustainable adequate high quality water supplies for a growing population A Water Story is an important resource for water professionals and those with an interest in water and the environment and related issues as well as students and the wider community

Canadian Aboriginal Art and Spirituality John W. Friesen, Virginia Agnes Lyons Friesen, 2006 During the late nineteenth century and most of the twentieth century Aboriginal art received short shrift in Canadian historical literature but today Aboriginal art is finally being regarded as art in its own right in the best sense of the word This book presents a literary and visual journey reflecting on Aboriginal lifestyles and artwork of the seven major culture areas of Canada Maritime Eastern Woodland Plains Plateau Northwest Coast Northern and Metis Most of the cited Aboriginal artists are internationally known and their careers represent a wide variety of artistic undertakings including architecture carving ceramics drama mask making painting photography and sculpture

Unsettling Food Politics Christopher Mayes, 2018-10-16 Over the past 25 years activists farmers and scholars have been arguing that the industrialized global food system erodes democracy perpetuates injustices undermines population health and is environmentally unsustainable In an attempt to resist these effects activists have proposed alternative food networks that draw on ideas and practices from pre industrial agrarian smallholder farming as well as contemporary peasant movements This book uses current debates over Michel Foucault's method of genealogy as a practice of critique and historical problematization of the present to reveal the historical constitution of contemporary alternative food discourses While alternative food activists appeal to food sovereignty and agrarian discourses to counter the influence of neoliberal agricultural policies these discourses remain entangled with colonial logics In particular the influence of Enlightenment ideas of improvement colonial practices of agriculture as a means to establish ownership and anthropocentric relations to the land In combination with the genealogical analysis this book brings continental political philosophy into conversation with Indigenous theories of sovereignty and alternative food discourse in order to open new spaces for thinking about food and politics in contemporary Australia
