CBT Approaches for Children and Young People: A Practical Case Study Guide Alison Coad, Nick Wrycraft, 2015-09-16 This thought-provoking guide offers clinicians new perspectives on the delivery of cognitive behavioural therapy (CBT) to children and young people through the highly engaging, lively medium of the case study format. The narrative case studies Alison Coad and Nick Wrycraft present give fresh insights into the ways in which various CBT approaches can be used as the foundation for highly individual treatment programmes. Central to each case is the experience and the voice of the young person and, as appropriate, those who support and care for them. This inspirational book offers innovative examples of ways in which, as a clinician, you can respond to the needs of children and young people employing evidence-based practice while simultaneously negotiating the impact of sustained reductions in mental health service resources. **Abnormal**

Psychology and Life: A Dimensional Approach Chris Kearney, Timothy J. Trull, 2014-02-11 Chris Kearney and Tim Trull's *ABNORMAL PSYCHOLOGY AND LIFE: A DIMENSIONAL APPROACH* provides students with a concise, contemporary, science-based view of psychopathology that emphasizes the individual first and the disorder second. Through consistent pedagogy featuring clinical cases and real first-person narratives, the text illuminates our understanding that abnormal behavior, rather than being either present or absent, exists in everyone to some degree on a continuum from normal to pathological. By highlighting this widely accepted dimensional view, which places the behavior of an individual at the forefront of clinical assessment, prevention, definition, and treatment, the text's goal is to encourage students to become intelligent consumers of mental health information. With its emphasis on assessment and treatment, as well as prevention, the book gives students the tools necessary to understand the precursors of abnormal behavior, overcome the stigma associated with it, and identify the real people classified as exhibiting it.
