KEARNEY,2017 [Psychology, Mental Health and Distress](#) John Cromby,David Harper,Paula Reavey,2017-09-16 Is depression simply the result of chemical imbalances or Schizophrenia a wholly biological disorder What role do the broader circumstances of an individual s social cultural and heuristic world play in the wider scheme of their psychological wellbeing In this ground breaking and highly innovative text Cromby et al deliver

an introduction to the biopsychosocial paradigm for understanding and treating psychological distress taking into consideration the wider contexts that engender the onset of mental illness and critiquing the limitations in the sole use of the biomedical model in psychological practice. Rather than biologically determined or clinically measurable readers are encouraged to consider mental illness as a subjective experience that is expressed according to the individual experiences of the sufferer rather than the rigidity of diagnostic categories. Similarly approaches to recovery expand beyond psychiatric medication to consider the fundamental function of methods such as psychotherapy, community psychology and service user movements in the recovery process. Offering a holistic account of the experience of psychological distress this text draws upon not only statistical evidence but places an integral emphasis on the service user experience, anecdotal accounts of which feature throughout in order to provide readers with the perspective of the mental health sufferer. Taking an integrative approach to the psychology of mental health the authors draw from a wealth of experience, examples and approaches to present this student friendly and engaging text. This is core reading for anyone serious about understanding mental health issues and is suitable for undergraduate students taking introductory courses in psychology and abnormal psychology.

**Human Trafficking in Africa** Alecia Dionne Hoffman, Sabella Ogbobode Abidde, 2021-12-13. This edited volume examines the contemporary practice of human trafficking on the African continent. It investigates the scourge of human trafficking in Africa from the broader international and regional perspectives as well as from a country specific context. Written by a multi disciplinary panel of academics and practitioners the book is divided into three sections that highlight a wide range of issues. Section One examines the theoretical and legal challenges of trafficking. Section Two focuses on the regional and nation state perspectives of human trafficking along with selected cases of trafficking. Section Three highlights the impact of trafficking on youth with specific attention given to child soldiering and female victims of trafficking. Providing a multi faceted approach to a problem that crosses multiple disciplines this volume will be useful to scholars and students interested in African politics, African studies, migration, human rights, sociology, law and economics as well as members of the diplomatic corps, governmental, intergovernmental and non governmental organizations.
