Don't forget the wheel! Here it is for you to use:

This is a vocabulary and grammar packet handout for your students. But as a teacher, you can use this same material not only as a reference for the students but as part of your lesson. The notes contain extra and fuller grammar explanations that the *Avancemos* series lacks, for example how, question format, tenses, simple future tense, and more.

You can project these notes on a smartboard and then click on the link which is right above the QR code. This link is the same as the QR code but the QR codes make it easy for students to use their cellphones, tablets, notebooks, or other devices to access the same resources. The links and QR codes give you access to PowerPoint with grammar explanations, tutorials, videos (when available), activities, practice, games, and challenges (listed). **NOTE:** The notes are my material. The websites are readily available online, I simply have searched for you. The materials contained in the websites are not my property.

The vocabulary for the section is given and numbered so you can assign a range of words to study per night. The grammar is given and explained followed by QR codes for students to use on their own.

If you have absent students, these notes and QR codes will allow the student to access the tutorials and PowerPoint to introduce the material missed, followed by practice. They won't have a reason to get behind.

Special education students have good practice and resources while advanced students can challenge themselves.

Parents will have this as a tool to help their child and cannot deny having access to resources for their child.
