Termeer, E., Vos, B., Bolchini, A., Van Ingen, E., Abrokwa, K., 2023-06-08 This paper is the product of a collaboration between the Food and Agriculture Organization of the United Nations FAO and Wageningen University and Research WUR to explore the potential application of innovative technologies to improve data collection and risk estimation of child labour in the cocoa sector In particular it assesses the potential role of blockchain technology and Geographic Information Systems GIS in collecting and sharing data on cocoa growing areas in Ghana and how this could contribute to monitoring and ultimately preventing child labour in those areas During an inception mission undertaken by FAO in Ghana open consultations with various stakeholders in the cocoa sector led to the identification of a number of Key Data Elements KDEs to inform the design of a blockchain system with the objective to facilitate real time cost efficient and collaborative monitoring of the risk of child labour in cocoa growing areas in Ghana WUR was commissioned by the FAO to further explore the potential application of blockchain technology and GIS to monitor selected KDEs related to the root causes of child labour in Ghana Despite decades of interventions since the ratification of the Harkin Engel Protocol in 2001 to eliminate child labour in the cocoa sectors of Cote d'Ivoire and Ghana the latest progress report shows child labour in this sector is increasing rather than decreasing Sadhu et al 2020 This trend is concerning given the detrimental effects of child labour on children's lives education and health and the perpetuated cycle of poverty as a result To break this trend it is necessary to expand and improve current methods of tracking the incidence of child labour monitoring and explore more sustainable ways to support rural families to keep children out of child labour prevention To that end technology digitalization and digital innovations have a role in poverty reduction and improving living standards in developing countries however political and socio economic problems can hinder these technological fixes With smallholder cocoa producers being the most vulnerable actors within this value chain the implementation of technological monitoring systems is not a clear cut route Participation and engagement depend not only on the perception of the advantages to farmers and community but also on issues that impact the adoption and use of information and communication technologies ICT For example availability affordability and literacy and effective use

Council of Europe, *The Oklahoma Teacher*, 1940 *International Law Concerning Child Civilians in Armed Conflict* Jenny Kuper, 1997 Each year many thousands of child civilians are killed injured or otherwise physically and psychologically harmed as a result of armed conflicts There is a considerable body of international law which aims to minimise the harm inflicted on these children and yet it is little known or observed This book is the first major international legal text to focus exclusively on child civilians It addresses three main questions 1 what are the precise rules incorporated in the pertinent body of law and what are its implementation mechanisms 2 how effective is it with reference to recent conflicts involving Iraq

in helping to achieve some protection for child civilians and 3 can it be rendered more effective The book concludes by proposing a number of strategies to strengthen the impact of the applicable law As the first detailed analysis of the surprisingly large body of law relevant to the treatment of child civilians this book is an important contribution to a topical and highly charged human rights issue **Bulletin** International Labour Office,International Labour Organization,2005 Series A Information on the activities of the ILO texts adopted by the International Labour Conference and other official documents Series B Reports of the Committee on Freedom of Association of the Governing Body of the ILO and related material *The Budget [a Monthly Magazine to Advocate Economy and Efficiency in the Business of Government]* Walter Gray Miller,1922 *Ohio Woman Voter* ,1928 **The Coal Trade Journal** ,1894 **The Public** ,1902 **The Public** Louis Freeland Post,Alice Thacher Post,Stoughton Cooley,1911 Webster's New International Dictionary of the English Language Paul Worthington Carhart,Thomas Albert Knott,William Allan Neilson,1934 **The Woman Citizen** ,1925 **Office Appliances** ,1930 **Automobile Topics** ,1930
