### **PURPOSE**

The purpose of this policy is to establish administrative direction, procedural requirements, and technical guidance to ensure the appropriate protection of Texas Wesleyan information handled by computer networks.

### **SCOPE**

This policy applies to all who access Texas Wesleyan computer networks. Throughout this policy, the word “user” will be used to collectively refer to all such individuals. The policy also applies to all computer and data communication systems owned by or administered by Texas Wesleyan or its partners.

### **POLICY**

All information traveling over Texas Wesleyan computer networks that has not been specifically identified as the property of other parties will be treated as though it is a Texas Wesleyan asset. It is the policy of Texas Wesleyan to prohibit unauthorized access, disclosure, duplication, modification, diversion, destruction, loss, misuse, or theft of this information. In addition, it is the policy of Texas Wesleyan to protect information belonging to third parties that have been entrusted to Texas Wesleyan in a manner consistent with its sensitivity and in accordance with all applicable agreements.

# Network Policy Document Sample

**Edward G. Amoroso, Ronald Sharp**

A red circular graphic with a gradient, appearing as a partial circle or a thick arc, located to the right of the authors' names.

## Network Policy Document Sample:

*Information Security Policies, Procedures, and Standards* Douglas J. Landoll, 2017-03-27 Information Security Policies Procedures and Standards A Practitioner's Reference gives you a blueprint on how to develop effective information security policies and procedures It uses standards such as NIST 800 53 ISO 27001 and COBIT and regulations such as HIPAA and PCI DSS as the foundation for the content Highlighting key terminology policy development concepts and methods and suggested document structures it includes examples checklists sample policies and procedures guidelines and a synopsis of the applicable standards The author explains how and why procedures are developed and implemented rather than simply provide information and examples This is an important distinction because no two organizations are exactly alike therefore no two sets of policies and procedures are going to be exactly alike This approach provides the foundation and understanding you need to write effective policies procedures and standards clearly and concisely Developing policies and procedures may seem to be an overwhelming task However by relying on the material presented in this book adopting the policy development techniques and examining the examples the task will not seem so daunting You can use the discussion material to help sell the concepts which may be the most difficult aspect of the process Once you have completed a policy or two you will have the courage to take on even more tasks Additionally the skills you acquire will assist you in other areas of your professional and private life such as expressing an idea clearly and concisely or creating a project plan

**The The Kubernetes Workshop** Zachary Arnold, Sahil Dua, Wei Huang, Faisal Masood, Melony Qin, Mohammed Abu Taleb, 2020-09-24 This workshop takes you through a Kubernetes oriented application delivery pipeline in a practical way You'll learn how to manage containers efficiently and scale and stabilize cloud native applications using Kubernetes
