And Clinical Dicta Contra Therapy Process:

Clinical Dicta and Contradicta John C. Espy, 2016-01-14 This book looks at the therapy process from both the inside out and the outside in Over many years of sitting with patients and supervisees Dr John C Espy found that the themes represented here kept emerging in one form or another Are we winsome or loathsome Are we self knowing or self concealing Psychoanalysis is a psychic pilgrimage that reveals the depths of both our capacity to love and our depravity Life is not clean and is fraught with temptations to undermine those behaviours which are in our own best interests the greatest perhaps being those deceptions about what we reveal of who we really are Part One explores these dynamics in the form of laconic adages Part Two considers contradiction in clinical vignettes while Part Three examines how serial killers use projective identification to groom and ultimately ensnare their victims The author's insights here into how a serial perpetrator uses projective identification are both insightful and compelling Book cover [Clinical Dicta and Contra Dicta](#) John E.

Espy, 2019-11-13 Many of John Espy's thoughts are so wise they should be inscribed in stone Dr Antonino Ferro author of *Reveries An Unfettered Mind* From the author of the searing books on serial murder comes a collection of thoughts and pressures brewing during some forty years of practice Dr Michael Eigen author of *The Psychotic Core* Clinical Dicta and Contra Dicta examines the therapy process both from the inside out and the outside in Over many years of sitting with patients and supervisees John Espy found that the themes presented in his office had threads of similarities Are we winsome or loathsome Do we desire self knowing or do we seek out more psychically sophisticated ways of self deception

Psychotherapy and psychoanalysis is a psychic pilgrimage that reveals the depths of both our capacity to love and our capacity for hate Life is not clean and no one gets out unscathed We are fraught with temptations and unconscious desires to deceive ourselves by engaging in behaviors that undermine our own best self interests The best therapy results in an exploration of our illusions of who we imagine ourselves to be confronted by who in fact we are Clinical Dicta and Contra Dicta explores these issues both visually and in narrative form Iconic adages and clinical vignettes are presented as well as a treatise on how serial perpetrators use projective identification to groom and ultimately ensnare their victims
