

# DATA MANAGEMENT BEST PRACTICES

## Infographic

### DATA GOVERNANCE BEST PRACTICES

Define clear and achievable data strategy goals

Start with the people, then define the process, and then technology

Set the right metrics. Do not measure everything

Build effective communication. Set clear roles and expectation

### DATA STEWARDSHIP BEST PRACTICES

Data steward should be a part of the business, not only of the IT

Stewards must have clear and specific goals for data quality progress

Stewards should be visible, influential, and accountable

Provide a right stewardship culture that views data as a key competitive asset

### DATA QUALITY BEST PRACTICES

Regular data assessment and constant monitoring and reporting

Establish data quality metrics and a measurement scale

Educate your entire organization on the basics and value of data quality

Put employees in charge and choose data stewards

### MASTER DATA MANAGEMENT BEST PRACTICES

Identify the business value of MDM to ensure a high ROI

Use a sustainable, reusable, scalable, and real-time IT platform for MDM

Ensure seamless integration of the master data across different platforms

Test, test, and test again

### DATA INTEGRATION BEST PRACTICES

Make data integration an important part of any business strategy

Use new generation technology (as cloud, mobile, real time analytics, etc.)

Reduce or remove data silos. They block data sharing and integration

Look for long-term benefits. Don't aim for a quick ROI
