Hans van Zon

And Post Soviet Power State Led Development Marketization:

Post-Soviet Power Susanne A. Wengle, 2015-02-05 Examines the transformation of the Russian electricity system during post Soviet marketization arguing for a view of economic and political development as mutually constitutive *The Law and Policy of New Eurasian Regionalization* Anna Aseeva, Jędrzej Górska, 2021-01-25 The Law and Policy of New Eurasian Regionalization Economic Integration Trade and Investment in the Post Soviet and Greater Eurasian Space edited by Anna Aseeva and Jędrzej Górska makes several unique contributions to the literature First and foremost most of the current literature is in either economics or politics with only a secondary focus on legal and institutional matters Secondly and consequently the book is accessible and relevant to readers both inside and outside the boundaries of the Eurasian area not only geographical boundaries but also legal geopolitical geo-economic cultural and indeed disciplinary boundaries Drawing on international transnational and comparative legal scholarship this rich volume offers the insights by a plethora of leading international scholars in economics institutional theory area studies international relations global political economy political science and sociology The contributors come from four corners of the globe including Asia Europe and North America

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies' roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states

Staging Democracy Jessica Pisano, 2022-07-15 Focusing on the experiences of people in Russia and Ukraine Staging Democracy shows how some national leaders' seeming popularity rests on local economic compacts Jessica Pisano draws on long term research in rural communities and company towns analyzing how local political and business leaders seeking favor from incumbent politicians used salaries benefits and public infrastructure to pressure citizens to participate in command performances Pisano looks at elections whose outcome was known in advance protests for hire and smaller miseries to explain why people participate what differs from spectacle in totalitarian societies how political theater exists in both authoritarian and democratic systems and how such performances reshape understandings of the role of politics Staging Democracy moves beyond Russia and Ukraine to offer a

novel economic argument for why some people support Putin and similar politicians Pisano suggests we can analyze politics in both democracies and authoritarian regimes using the same analytical lens of political theater **Micro-institutional Foundations of Capitalism** Roselyn Hsueh,2022-06-30 This book introduces a new theory of pathways to globalization and development which identifies national configurations of sectoral models **Russian Modernization** Markku

Kivinen,Brendan G. Humphreys,2020-11-29 Building on an original interpretation of social theory and an interdisciplinary approach this book creates a new paradigm in the Russian studies Taking a fresh view of Russia's multiple experiences of modernization it seeks to explain the Putin era in a completely new way This book explores the paradoxical and contradictory aspects of Russia analyzing the energy dependent economy and hybrid political regime but also religion welfare and culture and their often complex interrelations Written by a community of both Western and Russian scholars this book re-affirms the value of social science when confronting a society that has undergone enormous and costly systematic changes The Russian elites see modernization narrowly as economic and technological competitiveness The contributors to this volume see contemporary Russia facing a series of antinomies which are macro level dilemmas that cannot be abolished either by philosophical mediation or by immediate political decisions As such they are the tension fields that constitute choices for various competing agencies This book will be of interest to scholars and students of Russian studies transition studies sociology social policy political science energy policy cultural studies and stratification studies Professionals involved in energy ecology and security policy will also find this publication a rich source **Black Earth, White Bread** Susanne A.

Wengle,2022-03-15 Introduction setting the table Governance or How to solve the grain problem Production Consumption or The Perestroika of the quotidian Nature Conclusion vulnerabilities **Dispersed Dispossession** Alexander

Vorbrugg,2025-07-01 This book provides a nuanced analysis of rural change in Russia during the 2010s a crucial and formative phase marked by the consolidation of giant agricultural companies large land deals soaring exports and spectacular failures of investment projects It contextualizes complex and often ambivalent empirical realities within historical and political economic frameworks Through extensive fieldwork Alexander Vorbrugg gives rare insights into the operations of large agricultural companies and reveals how the deterioration of material infrastructures social arrangements government and local supports and collective goods erode the conditions of rural inhabitants well-being and agency

Vorbrugg introduces dispersed dispossession a concept that helps to relate gradual degradation to appropriation and agency The concept captures losses that have been accumulated across Soviet reform and state capitalist phases and stick to places persons and potentialities These losses are perpetuated and exploited by businesses and politicians and have profound implications for the conditions for resistance shaping the range of conceivable alternatives They are part of a history that is not fully past

Post-Soviet Affairs ,1997 **Environment and Planning** ,1998 **The Soviet and Post-Soviet Review** ,1998 **Oil and State-building in Post-Soviet Azerbaijan and Kazakhstan** David Isao Hoffman,2000

Post-Soviet Geography and Economics ,2000 Russian Politics Today Susanne A. Wengle,2022-10-27 An accessible and nuanced introduction to contemporary Russian politics using the theme of stability versus fragility as its overarching framework This innovative textbook explores core themes as well as path breaking insights into the politics of race class gender sexuality and the environment **American Doctoral Dissertations** ,1998 **Russia's Development Problem**

Hans van Zon,2008-10-31 This book argues that Russia has struggled under autocratic power and that this continues to affect economic development today A cult of power has underpinned legal nihilism distrust secrecy and aversion to transparency and accountability Informal institutions are more important than formal institutions and influence macroeconomic development Property and power are merged while property rights are weakly developed Russia does not only face market failure but also hierarchy and network failure A system of values and social practices with deep historic roots constitutes perhaps the most formidable obstacle to social and economic development By exploring the operating mechanisms of the Russian economy in a comparative perspective and with fascinating insights into how Russian path dependence continues to exert an influence on modern day Russia and limit its development this book is essential reading for all those interested in the Russian economy and modern Russian history **BOOK JACKET** The Farmer Threat Don Van Atta,1993-05-26 Exploring the origins and progress of the current agrarian reforms contributing authors analyze the significance of contemporary Russian evaluations of pre revolutionary rural reform and many other agrarian issues

Capital Accumulation and the Information Industries of Mainland China Dimitri Kessler,2005 **Paradox of Change** William Perdue,1995-10-20 A historical perspective on the social changes in Poland **Problems of Post-communism** ,2007
