*Insights and Innovations in Structural Engineering, Mechanics and Computation* Alphose Zingoni, 2016-11-25 Insights and Innovations in Structural Engineering Mechanics and Computation comprises 360 papers that were presented at the Sixth International Conference on Structural Engineering Mechanics and Computation SEMC 2016 Cape Town South Africa 5 7 September 2016 The papers reflect the broad scope of the SEMC conferences and cover a wide range of engineering structures buildings bridges towers roofs foundations offshore structures tunnels dams vessels vehicles and machinery and engineering materials steel aluminium concrete masonry timber glass polymers composites laminates smart materials

[The Farinograph Handbook](#) Jayne E. Bock, Clyde Don, 2022-05-07 The Farinograph Handbook Advances in Technology Science and Applications Fourth Edition highlights the instrument's changes over the last three decades This book outlines how different farinograph models work how to properly run a standard test and interpret the results and the standard and unconventional applications for the instrument This fourth edition will familiarize readers with the farinograph instrument's principles of operation and factors that affect its operation This edition also contains new research on dough rheology the use of results for process control in traditional bakery applications and information on instrument maintenance and calibration This handbook is ideal for dough rheologists cereal scientists food specifically bread scientists millers grain developers academics researchers and students Acts as an authoritative source for information regarding the farinograph and its use Provides full coverage of the principles governing the instrument its operation and application of results Contains a troubleshooting section which addresses common issues encountered with the instrument Covers information on potential sources of error and how to avoid or control them Equips the reader to determine when an instrument requires maintenance and or repair

**Discontinuous Fiber Composites** Tim A. Osswald, 2019-01-15 This book is a printed edition of the Special Issue Discontinuous Fiber Composites that was published in *J Compos Sci*

*Fiber-Reinforced Plastics* Martin Masuelli, 2022-04-20 This book deepens the study and knowledge on fiber reinforced plastics FRPs which are composite materials made of a polymer matrix reinforced with fibers The fibers are usually glass carbon or aramid although other fibers such as paper wood or asbestos are sometimes used The polymer is usually an epoxy vinyl ester or polyester thermosetting plastic and phenol formaldehyde resins are still in use Among the most prominent applications of FRPs are in the aerospace automotive marine and construction industries The development of FRPs has a very promising future with a marked annual increase and with a wide range of sources This book presents comprehensive information on FRPs and their wide variety of applications in the industry worldwide
