Smith V. Kolb, 1990 [Talking about Food](#) Sofia Rüdiger, Susanne Mühlisen, 2020-06-15 All humans eat and all humans speak activities which in social life often but not always co-occur. We talk while eating and drinking with others but food is also a prominent literal and metaphorical discursive topic which contributes to establishing communities and identities. This omnipresence of eating and drinking in our daily lives has led to a public fascination with foodways. The contributions in this edited collection investigate the connection between language and food from a variety of perspectives. As food discourses operate on local, global and mediated levels they are intertwined with notions of identity and culture and thus shed light on intimate understandings of ourselves as human beings. Talking about Food: The Social and the Global in Eating Communities provides up-to-date and thought-provoking contributions to the linguistics of food. The book is essential reading for anyone interested in food-related subjects.

[Federal Register](#), 1994-08-11 **The Dynamics of Influencer Marketing** José M. Álvarez-Monzoncillo, 2022-08-08 YouTube, Instagram, Facebook, Vimeo, Twitter, etc. have their own logics, dynamics and different audiences. This book analyses how the users of these social networks, especially those of YouTube and Instagram, become content prescribers, opinion leaders and, by extension, people of influence. What influence capacity do they have? Why are intimate or personal aspects shared with unknown people? Who are the big beneficiaries? How much is vanity and how much altruism? What business is behind these social networks? What dangers do they contain? What volume of business can we estimate they generate? How are they transforming cultural industries? What legislation is applied? How does the legislation affect these communications when they are sponsored? Is the privacy of users violated with the data obtained? Who is the owner of the content? Are they to blame for fake news? In this changing, challenging and intriguing environment, *The Dynamics of Influencer Marketing* discusses all of these questions and more. Considering this complexity from different perspectives (technological, economic, sociological, psychological and legal), the book combines the visions of several experts from the academic world and provides a structured framework with a wide approach to understand the new era of influencing.
