Book And Black Dragon River Journey Borderlands:

Black Dragon River Dominic Ziegler, 2015 Black Dragon River recounts a personal journey down one of Asia's great rivers. The world's ninth largest river, the Amur, serves as a large part of the border between Russia and China. As a crossroads for the great empires of Asia, this area offers Economist journalist Dominic Ziegler a lens with which to examine the societies at Europe's only borderland with East Asia. Part travel writing, part history, it reveals how the long shared history on the Amur has conditioned the way China and Russia behave toward each other.

River of Life, River of Death Victor Mallet, 2017-10-20 India is killing the Ganges and the Ganges in turn is killing India. The waterway that has nourished more people than any on earth for three millennia is now so polluted with sewage and toxic waste that it has become a menace to human and animal health. Victor Mallet traces the holy river from source to mouth and from ancient times to the present day to find that the battle to rescue what is arguably the world's most important river is far from lost. As one Hindu sage told the author in Rishikesh, on the banks of the upper Ganges known to Hindus as the goddess Ganga: If Ganga dies, India dies. If Ganga thrives, India thrives. The lives of 500 million people is no small thing. Drawing on four years of first-hand reporting and detailed historical and scientific research, Mallet delves into the religious, historical, and biological mysteries of the Ganges and explains how Hindus can simultaneously revere and abuse their national river. Starting at the Himalayan glacier where the Ganges emerges pure and cold from an icy cave known as the Cow's Mouth and ending in the tiger-infested mangrove swamps of the Bay of Bengal, Mallet encounters everyone from the naked holy men who worship the river to the engineers who divert its waters for irrigation, the scientists who study its bacteria, and Narendra Modi, the Hindu nationalist prime minister who says he wants to save India's mother river for posterity. Can they succeed in saving the river from catastrophe, or is it too late?

The New Border Wars Klaus Dodds, 2021-09-28 An enlightening look at contemporary border tensions from the Gaza Strip to the space race by one of the world's leading experts in geopolitics. Border expert Klaus Dodds journeys into the geopolitical clashes of tomorrow in an eye-opening tour of border walls, both literal and figurative. In the Himalayas, the Mediterranean, and elsewhere, the tension inherent to trying to divide the world into separate parcels has not gone away. And with climate change shifting our natural borders from mountains to glaciers to rivers, the question of how we live in a world that's becoming warmer and wetter and growing in population looms large. With wide-ranging insight and provocative analysis, Dodds shows why we are more likely to see more walls, barriers, and securitization in our daily lives. *The New Border Wars* examines just what borders truly mean in the modern world. How are they built? What do they signify for citizens and governments, and how do they help us understand our political past and most importantly, our diplomatic future? The
