Book And Reimagining Sacred Catherine Kristeva Religion:

Bernard Lonergan's Third Way of the Heart and Mind John Raymaker,2016-09-30 Today the world is confronted with many religious wars and the migrations of millions of persons due to these conflicts There is a need for informed dialog as to the roots of the conflicts and ways of addressing these in ways that speak to peoples minds and hearts This is what this book attempts to do from the viewpoint of major religious and ethical thinkers The book relies on Bernard Lonergan s foundational method to address problems systematically with a view to achieve breakthroughs in our openness to one another The book appeals to the teachings of the Buddha Jesus and Mohammad relying on the mystical and insights of these religious founders as well as those of dozens of their followers so as to find commonalities that can build bridges of mercy A global secularity ethics plays a leading role in this book s bridging efforts

Reimagining the Sacred Richard Kearney,Jens Zimmermann,2015-12-15 Contemporary conversations about religion and culture are framed by two reductive definitions of secularity In one multiple faiths and nonfaiths coexist free from a dominant belief in God In the other we deny the sacred altogether and exclude religion from rational thought and behavior But is there a third way for those who wish to rediscover the sacred in a skeptical society What kind of faith if any can be proclaimed after the ravages of the Holocaust and the many religion based terrors since Richard Kearney explores these questions with a host of philosophers known for their inclusive forward thinking work on the intersection of secularism politics and religion An interreligious dialogue that refuses to paper over religious difference these conversations locate the sacred within secular society and affirm a positive role for religion in human reflection and action Drawing on his own philosophical formulations literary analysis and personal interreligious experiences Kearney develops through these engagements a basic gesture of hospitality for approaching the question of God His work facilitates a fresh encounter with our best known voices in continental philosophy and their views on issues of importance to all spiritually minded individuals and skeptics how to reconcile God s goodness with human evil how to believe in both God and natural science how to talk about God without indulging in fundamentalist rhetoric and how to balance God s sovereignty with God s love

Theopoetics and Religious Difference Marius van Hoogstraten,2020-09-30 Why are interreligious encounters and relations both more troubling and more promising than typically assumed and how can this be embraced In engaging the contemporary theological discourse of theopoetics Marius van Hoogstraten offers a way of approaching religious difference that while perhaps unusual to readers familiar with more conventional theology may be especially fitting for this age Provided by publisher

Hope in a Secular Age David Newheiser,2019-12-19 Uses premodern theology and postmodern theory to show the endurance of religious and political commitments through the practice of hope

Public Righteousness Abimbola A. Adelakun,2023-05-25 Public Righteousness The Performative Ethics of Human Flourishing is driven by the idea that part of what manifests as a disorderly display of virtue in public culture is underlined by the desire to see a more righteous society and an expression of the will to enact such an ideal world into reality

This book re structures the ferment of such public displays and fashions an ethic that overturns the ostentatious signals of self righteousness and the fierce contest of animating visions This book engages the work of social ethicist Nimi Wariboko to explore an idea of public righteousness In place of smug superiority and phony pieties the performative ethics that inaugurate this public righteousness offer an intellectual and moral competence that establishes rectitude and culminates in human flourishing

Anacarnation and Returning to the Lived Body with Richard Kearney Brian Treanor,James L. Taylor,2022-10-26 This edited collection responds to Richard Kearney's recent work on touch excarnation and embodiment as well as his broader work in carnal hermeneutics which sets the stage for his return to and retrieval of the senses of the lived body Here fourteen scholars engage the breadth and depth of Kearney's work to illuminate our experience of the body The chapters collected within take up a wide variety of subjects from nature and non human animals to our experience of the sacred and the demonic and from art's account of touching to the political implications of various types of embodiment

Featuring also an inspired new reflection from Kearney himself in which he lays out his vision for anacarnation this volume is an important statement about the centrality of touch and embodiment in our experience and a reminder that despite the excarnating tendencies of contemporary life the lived body remains a touchstone for wisdom in our increasingly complicated and fragile world Written for scholars and students interested in touch embodiment phenomenology and hermeneutics this diverse and challenging collection contributes to a growing field of scholarship that recognizes and attempts to correct the excarnating trends in philosophy and in culture at large
