[The Power of Story](#) Joan Wink Ph.D., 2017-11-07 Through this book readers will discover that stories can move the human heart and head in ways that research cannot. Stories bring together readers writers librarians teachers students and families in the libraries of today and will continue to do so tomorrow. Written for all those lovers of literacy this book links libraries and literacies through the power of stories. The book is not filled with data in the form of pie charts graphs and tables. Rather the truth of the research is grounded in authentic stories that reflect not only the interpretation of data but also the transformative nature of literacies and libraries. The author's primary goal is that readers will come to value and use storytelling in their own professional and personal lives to explain and expand on complex concepts and to make information more accessible for all. The book begins by presenting anecdotes and the author's personal story to lay the foundation for what literacies are and what literacy is not. An activity Spiral of Literacy allows readers to reflect on their own literacies. Chapters that follow each begin with a story that sets the theoretical foundation. Each chapter concludes with an action section that demonstrates how to turn theory to practice whether you are in a library a classroom or at home. A final chapter envisions what libraries might look like in 10 years through interviews with librarians teachers and others interested in literacy. [Diversity Programming for Digital Youth](#) Jamie Campbell Naidoo, 2014-06-24 Combining information about outreach to diverse populations selection of culturally diverse children's print and digital media and library programming this book is the tool librarians need to promote cultural understanding through engaging children's programs designed for today's culturally diverse youth. Today's children live in a culturally diverse and constantly changing digital world. New digital media is created every day but librarians and other educators need help in evaluating cultural content in digital apps determining whether they send appropriate social messages to children and learning how to use them in library programs that promote cultural competence. Diversity Programming for Digital Youth Promoting Cultural Competence in the Children's Library provides just the help that is needed. This resource is the only one to examine the role of culturally diverse digital

I'm not a duck John Walsh, 2018-01-31 Early in his life John Walsh made a commitment that he would do whatever the Lord told him to do even if he didn't understand why. This commitment provided a foundation for his life. He has followed God's direction from the heartland of America to a bustling market in Cambodia from a bus in Jerusalem to a water taxi in Bangkok. John doesn't seek God's direction in every decision he makes but he has found that God steps in whenever he needs to change course. This book tells about a few times when God interfered with John's plans. This usually brought about a battle of wills between a man and the master of his destiny. The stories of these struggles are written in a casual, authentic voice that invites you to pour a cup of coffee and join John on the front porch. He will touch your heart with his hard-earned insights and delight you with his adventures around the world.
