Aviation Weather and Weather Services Irvin N. Gleim, 1996-06 **Aviation Weather Services** National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, National Aviation Weather Services Committee, 1995-11-02 Each time we see grim pictures of aircraft wreckage on a rain drenched crash site or scenes of tired holiday travelers stranded in snow covered airports we are reminded of the harsh impact that weather can have on the flying public This book examines issues that affect the provision of national aviation weather services and related research and technology development efforts It also discusses fragmentation of responsibilities and resources which leads to a less than optimal use of available weather information and examines alternatives for responding to this situation In particular it develops an approach whereby the federal government could provide stronger leadership to improve cooperation and coordination among aviation weather providers and users
