Ayf Coaches Code Of Conduct:

A Coach's Code of Conduct. Position Statement Linda Lyman, Marty Ewing, Nan Martino, 2009 Coaches exert a profound impact on our youths therefore society sets high expectations for them. As such whether coaches are compensated or work solely as volunteers they are responsible for executing coaching as a professional. If we are to continue to enhance the cultural perceptions of coaching we must strive to develop and master the standards that the National Association for Sport and Physical Education (NASPE) has set forth. NASPE intends for the National Standards for Sport Coaches to provide direction for administrators, coaches, athletes, and the community regarding the skills and knowledge that coaches should possess before coaching in various sport organizations, leagues, and governing bodies. In this statement which revises and replaces NASPE's 2001 Position Statement Coaches Code of Conduct, NASPE's Sport Steering Committee establishes the Code of Conduct to which coaches at all levels should hold themselves accountable. Original authors of this position statement are Randy Crist, Rebecca Mowrey, and Valerie Wayda.

Code of Conduct for Sport Coaches Sports Coach UK, 2004 *Code of Conduct for Sports Coaches*, 2003 **The Ethics of Sports Coaching** Alun R Hardman, Carwyn Jones, 2010-12-02 Is the role of the sports coach simply to improve sporting performance? What are the key ethical issues in sports coaching practice? Despite the increasing sophistication of our understanding of the player-sport coach relationship, the dominant perspective of the sports coach is still an instrumental one focused almost exclusively on performance achievement and competitive success. In this groundbreaking new book, leading sport scholars challenge that view, arguing that the coaching process is an inherently moral one with an inescapably ethical dimension involving intense relationships between players and coaches. The Ethics of Sports Coaching critically examines this moral aspect, develops a powerful idea of what sports coaching ought to be, and argues strongly that coaches must be aware of the ethical implications of their acts. The book is structured around four central themes: the nature of coaching, the character of the coach, coaching specific populations, and specific coaching contexts. It explores in detail many of the key ethical issues in contemporary sports coaching, including coaching special populations, the ethics of talent identification, understanding the limits of performance enhancement, coaching dangerous sports, expatriate coaching, setting professional standards in sports coaching. Combining powerful theoretical positions with clear insights into the everyday realities of sports coaching practice, this is an agenda-setting book. It is essential reading for all students, researchers, and practitioners with an interest in sports coaching or the ethics and philosophy of sport.
