**Low Vision Matters** Laura Stevens, MSci, Thomas Blackman, 2025-01-31 According to the Centers for Disease Control and Prevention CDC over seven million people in the US alone suffer from severe vision loss or blindness In the past low vision was truly a life altering condition Those seemingly everyday tasks that were once so simple instead became difficult whether one had to work cook read drive go out to shop or even turn on a light switch one's world had been completely turned upside down Today however things have begun to change With the revolution of Artificial Intelligence AI already underway many of the major barriers caused by diminished or fully lost vision have been lessened or completely eliminated In Low Vision Matters authors Laura Stevens and Thomas Blackman provide a comprehensive guide to all the aids and equipment now available along with important practical advice to those who are vision challenged The book is divided into two parts Part One focuses on the day to day activities that low vision can affect from safety in your home or traveling outside to the handling of finances or one's home entertainment system It discusses the latest technologies that can enable a person with eyesight problems to turn on a light start a dishwasher or even answer a phone through the use of oral commands and that's just the tip of the iceberg Part Two then provides a breakdown of the various kinds of helpful vision aid products now available Because the authors understand the costs involved in purchasing such equipment they include the names of those organizations and associations in an extensive Resources section along with various other crucial contacts about which those with low vision and their loved ones and caretakers need to know Times have changed Low Vision Matters provides a

wealth of information that can vastly improve the daily life of a person living with vision loss or blindness **Population**

**Health: Creating a Culture of Wellness** David B. Nash, Alexis Skoufalos, Raymond J. Fabius, Willie H. Oglesby, 2019-11-11

Since the passage of the Affordable Care Act the field of population health has evolved and matured considerably Improving quality and health outcomes along with lowering costs has become an ongoing focus in delivery of health care The new Third Edition of Population Health reflects this focus and evolution in today's dynamic healthcare landscape by conveying the key concepts of population health management and examining strategies for creating a culture of health and wellness in the context of health care reform Offering a comprehensive forward looking approach to population health the Third Edition's streamlined organization features 14 chapters divided among 3 major sections Part I Population Health in the U S Part 2 The Population Health Ecosystem and Part 3 Creating Culture Change *Artificial Intelligence Applications And Their Economic Effects On The Field Of Health Care* Melike TORUN, Ezgi DEMİR, 2022-11-15

Kishor Kumar

Reddy, Shenson Joseph, Herat Joshi, Srinath Doss, Mariya Ouaisa, 2025-09-26 This book explores how autonomous AI systems are reshaping human decision making across various industries and society The book delves into the concept of Agentic AI AI systems that can act independently and make decisions without human intervention Unlike existing literature that speculates about superintelligent systems this book offers practical insights into how current AI systems are already transforming sectors like health care finance and law It highlights the growing impact of these technologies on professional roles and governance offering a balanced view of both the opportunities and challenges presented by AI autonomy The book's findings show that Agentic AI enhances decision making by improving efficiency accuracy and scalability However it also presents ethical concerns related to accountability transparency and the shifting nature of human responsibility in AI mediated environments It emphasizes the need for robust ethical frameworks and governance structures to ensure that AI systems align with human values By focusing on real world applications and current AI technologies the book provides actionable insights for decision makers helping businesses policymakers and technologists navigate the evolving AI landscape It offers a roadmap for understanding the present day capabilities of autonomous systems and prepares professionals for the ethical

and operational challenges of integrating these technologies Readers will gain a comprehensive understanding of how Agentic AI is poised to redefine human life and decision making making it essential for anyone interested in the future of technology ethics and innovation Unlike traditional AI which typically requires human supervision or input Agentic AI introduces the concept of autonomy AI systems that can act learn and make decisions independently This paradigm shift challenges the conventional human centered approach to decision making positioning AI as a true partner in complex cognitive tasks The book also explores the ethical and societal implications of AI autonomy in ways that extend beyond typical discussions     *Advances in Anesthesia, 2024* Laurence Torsher,Richard Dutton,Arna Banerjee,Evan G.

Pivalizza,2024-10-25 *Advances in Anesthesia* reviews the year s most important findings and updates within the field in order to provide anesthesiologists with the current clinical information they need to improve patient outcomes A distinguished editorial board led by Dr Laurence Torsher identifies key areas of major progress and controversy and invites preeminent clinicians to contribute original articles devoted to these topics These insightful overviews in anesthesia inform and enhance clinical practice by bringing concepts to a clinical level and exploring their everyday impact on patient care Contains 14 articles on such topics as anesthesia s role in reducing postoperative opioid use disorder mitigating strategies for avoiding intraoperative hypotension environmental sustainability waste in the OR cannabis use and anesthesia noninvasive monitors long term postoperative cognitive dysfunction and more Provides in depth clinical reviews in anesthesia providing actionable insights for clinical practice Presents the latest information in the field under the leadership of an experienced editorial team Authors synthesize and distill the latest research and practice guidelines to create these timely topic based reviews     The U.S. Healthcare Ecosystem: Payers, Providers, Producers Lawton Robert Burns,2021-03-16 An Essential Guide to the Processes and Operational Complexities of the U S Healthcare System A Doody s Core Title for 2023 The U S Healthcare Ecosystem serves as an expert navigator through the complicated and often confusing environment where healthcare payers healthcare providers and producers of healthcare technologies all interact This thorough resource provides expert insight and analysis of employer based health insurance pharmacy benefits the major professions healthcare consolidation drug discovery and development biotechnology and much more Packed with timely examples and filled with illustrations The U S Healthcare Ecosystem will inspire you to think more critically about the business of healthcare and make informed assessments Features Includes often neglected topics impacting healthcare delivery such as employer based health insurance pharmacy benefits healthcare consolidation and biotechnology Highly readable and single authored by a Wharton Professor who has taught health care delivery and management for over 20 years Filled to the brim with helpful diagrams charts and tables nearly 350 figures complement the text Every chapter ends with a helpful Summary and Questions to Ponder     Quality Evaluation of Weight Management Apps Max Amelang,2022-05-30 Master s Thesis from the year 2021 in the subject Communications Technical Communication grade 1 2 Technical University of Ilmenau language English abstract

Introduction Obesity is a contributing factor to many diseases and is becoming a growing problem worldwide Many apps have been developed to assist users in improving their weight management However given the speed at which apps are created it is crucial to assess their quality regularly Objectives This study aimed to evaluate the quality of weight management apps using comprehensive quality assessment criteria By doing so the information quality RQ1 and system quality RQ2 were determined and relationships between these elements user ratings and app downloads RQ3 were examined Methods A systematic search in the US App Store using search terms related to weight management was performed System quality was assessed using the Mobile App Rating Scale MARS and rated on a 5 point scale The Taxonomy of Behavior Change Techniques BCTs was used to determine their presence or absence A second reviewer coded 50% of the apps to account for interrater reliability The descriptive and inferential statistical data analyses were carried out with SPSS Results A sample of N 38 apps was deemed eligible for this review On average 9.6 BCTs were identified per app range 3-19 The most frequently used BCTs were Provide instructions 87% and Prompt self monitoring 87% The MARS overall quality scores indicated moderate system quality M 3.48 SD .61 Functionality was the highest scoring MARS domain M 3.52 SD .68 while Aesthetics M 3.40 SD .84 scored the lowest Significant positive correlations were identified between the overall MARS score the number of BCTs and app downloads Conclusion Establishing a standardized framework for quality evaluation would increase the comparability of assessments and the significance for users Based on the present findings future app development should involve more health professionals integrate more evidence based content and incorporate more effective BCTs for weight management

*Care After Covid: What the Pandemic Revealed Is Broken in Healthcare and How to Reinvent It* Shantanu Nundy, 2021-05-04 A practical action plan for reinventing healthcare in a post pandemic world from a physician entrepreneur who works with Fortune 500 companies If the healthcare system were an emperor Covid 19 tragically revealed that it had no clothes Healthcare had to adapt and quickly sparking a dramatic acceleration of virtual care drive through testing and home based services In the process old rules were rewritten and perhaps surprisingly largely in a good way for patients To succeed in the post pandemic world all of us patients caregivers providers employers investors technologists and policymakers need to understand the new healthcare landscape and change our strategies and behaviors accordingly In *Care After Covid* practicing physician and business leader Dr Shantanu Nundy Chief Medical Officer of Accolade which provides technology enabled health services to Fortune 500 companies as well as small businesses lays out a comprehensive plan to transform healthcare along three dimensions Distributed healthcare will happen where health happens It will shift from where doctors are to where patients are at home in the community and increasingly on their phones Digitally enabled healthcare and the relationships that are central to care will be strengthened by data and technology It will shift from being siloed to connected from being episodic to continuous from one size fits all to more personalized Decentralized healthcare decisions and resources will be in the hands of those closest to care The power to

determine who gets care and how they get it will shift away from governments and insurance companies to communities employers doctors and patients Filled with firsthand insights and stories from the frontlines of healthcare as well as innovative solutions that were proven effective before and during the pandemic Care After Covid shows all stakeholders in the healthcare ecosystem exactly what needs to change and more importantly how to do it The time to act is now We can t afford not to
