**Phase Media** James Ash, 2017-12-14 In Phase Media James Ash theorizes how smart objects understood as Internet connected and sensor enabled devices are altering users experience of their environment. Rather than networks connected by lines of transmission smart objects generate phases understood as space times that modulate the spatio temporal intelligibility of both humans and non humans. Examining a range of objects and services from the Apple Watch to Nest Cam to Uber Ash suggests that the modulation of spatio temporal intelligibility is partly shaped by the commercial logics of the industries that design and manufacture smart objects but can also exceed them. Drawing upon the work of Martin Heidegger Gilbert Simondon and Bruno Latour Ash argues that smart objects have their own phase politics

which offer opportunities for new forms of public to emerge Phase Media develops a conceptual vocabulary to contend that smart objects do more than just enabling a world of increased corporate control and surveillance as they also provide the tools to expose and re order the very logics and procedures that created them *Direct to Consumer Testing: The Role of Laboratory Medicine, An Issue of Cardiology Clinics* Nicole V Tolan, Robert Nerenz, 2020-02-04 This issue of Clinics in Laboratory Medicine guest edited by Drs Nicole V Tolan and Robert Nerenz will cover Direct to Consumer Testing The Role of Laboratory Medicine This issue is one of four selected each year by our Editor in Chief Dr Milenko Jovan Tanasijevic Topics discussed in this issue will include Health Literacy Identifying Valuable Tests Challenges with At Home and Mail In Direct to Consumer Genetic Testing Self Ordering and Interpretations American Association for Clinical Chemistry Direct to Consumer Genetic Testing Position Statement Data Disjunction Integration of At Home Testing Wearable Devices Oncogene Panels and Risk Calculations Ethics and Pharmacy s Integration and Testing Offered among others Proceedings of the 1st International Conference on Lifestyle Diseases and Natural Medicine (ICOLIFEMED 2024) Edy Fachrial, Suhartomi Suhartomi, 2025-03-30 This book is an Open access In the past few decades there has been a growing recognition of the crucial role that lifestyle factors such as diet physical activity and stress management play in preventing and managing a wide range of chronic diseases Lifestyle medicine has emerged as a response to this recognition focusing on empowering individuals and communities to adopt healthier behaviors At the same time there has been a resurgence of interest in traditional and natural medicine approaches which often emphasize integrating mind body practices herbal remedies and other holistic therapies We encourage bringing together researchers clinicians policymakers and other stakeholders to explore the intersection of lifestyle diseases and natural medicine and to discuss how these complementary approaches can be integrated to address the health challenges of the 21st century For this purpose we are organizing The 1st International Conference on Lifestyle Diseases and Natural Medicine ICOLIFEMED which will be held on December 5 6th 2024 The theme of ICOLIFEMED 2024 is Integration of healthy lifestyle and natural medicine in the prevention and management of modern diseases About one hundred presenters and participants from Australia Japan China Malaysia Brunei Darussalam and Indonesia will participate in this event Mobile Forensic Investigations: A Guide to Evidence Collection, Analysis, and Presentation, Second Edition Lee Reiber, 2018-12-06 Master the tools and techniques of mobile forensic investigations Conduct mobile forensic investigations that are legal ethical and highly effective using the detailed information contained in this practical guide Mobile Forensic Investigations A Guide to Evidence Collection Analysis and Presentation Second Edition fully explains the latest tools and methods along with features examples and real world case studies Find out how to assemble a mobile forensics lab collect prosecutable evidence uncover hidden files and lock down the chain of custody This comprehensive resource shows not only how to collect and analyze mobile device data but also how to accurately document your investigations to deliver court ready documents Legally seize mobile devices USB drives SD cards and SIM

Diego CA US HRV was measured under the four following conditions during the visit 1 at rest in a supine position 2 sitting while talking 3 sitting while watching a movie clip and 4 sitting before and after walking To guarantee the Apple Watch and Biopac 3 lead ECG recordings aligned a synchronized countdown was conducted for each condition with event markers electronically placed on the Biopac 3 lead ECG recording when the Apple Watch Breathe app began and ended Test validity was assessed using the Bland Altman method and the combination of both precision and accuracy were estimated using Lin's correlation coefficient Results The highest level of agreement and concordance between devices occurred during rest Near perfect agreement was observed for measures of the R R interval and BPM with mean absolute percentage errors of 1.03% and 4.50% respectively Moderate levels of agreement and concordance for NN intervals PNN50 and %PNN50 were only achieved at rest Conclusion The Apple Watch provides a high level of validity for measuring R R intervals and BPM in healthy adults More refined measures of HRV such as NN intervals were only moderately acceptable when taken at rest Further research is needed to determine if the Apple Watch's HRV measures offer a significant opportunity for the surveillance of CVD risk
