Jacobson, Jayne G. Hurley, 2002-01-01 Offers facts on the calorie fat saturated fat cholesterol and sodium content of common dishes from restaurants and chains highlighting best and worst choices and offering tips for ordering wisely *The McDonaldization of Society* George Ritzer, 2018-01-12 The author is a proud sponsor of the 2020 SAGE Keith Roberts Teaching Innovations Award enabling graduate students and early career faculty to attend the annual ASA pre conference teaching and learning workshop The book that made McDonaldization part of the lexicon of contemporary sociological theory read by hundreds of thousands of students is now in its Ninth Edition George Ritzer's seminal work of critical sociology The

McDonaldization of Society continues to stand as one of the pillars of modern day sociological thought Building on the argument that the fast food restaurant has become the model for the rationalization process today this book links theory to contemporary life in a globalized world and resonates with students in a way that few other books do Ritzer opens students eyes to many current issues and shows how McDonaldization s principles apply to other settings especially in the areas of consumption and globalization This new edition has been significantly reoriented to reflect our experience of McDonaldization in the world of online consumption New to this Edition Examines how retailers like Amazon represent a new era of datafication the transformation of vast amounts of information into quantifiable data Discusses how the digital world has almost unlimited potential to turn consumers into prosumers doing volunteer work formerly done by paid employees This edition is more streamlined than previous editions to sharpen its argument and message and make it more useable as a secondary reading in a wide range of courses
