### **Multilingualism and Intercultural**

**Communication** H. Ekkehard Wolff, Pamela Maseko, Russell H Kaschula, Christine Anthonissen, Bassey E Antia, 2017-05-01

An in depth look at the changing sociolinguistic dynamics that have influenced South African society. To date there has been no published textbook which takes into account changing sociolinguistic dynamics that have influenced South African society. Multilingualism and Intercultural Communication breaks new ground in this arena. The scope of this book ranges from macro sociolinguistic questions pertaining to language policies and their implementation or non implementation to micro sociolinguistic observations of actual language use in verbal interaction, mainly in multilingual contexts of Higher Education. HE. There is a gradual move for the study of language and culture to be taught in the context of professional disciplines in which they would be used, for example Journalism and African languages, Education and African languages etc. The book caters for this growing market. Because of its multilingual nature it caters to English and Afrikaans language speakers as well as the Sotho and Nguni language groups – the largest languages in South Africa and also increasingly used in the context of South African Higher Education. It brings together various inter linked disciplines such as Sociolinguistics and Applied Language Studies, Media Studies and Journalism, History and Education, Social and Natural Sciences, Law, Human Language Technology, Music, Intercultural Communication and Literary Studies. The unique cross cutting disciplinary features of the book will make it a must have for twenty first century South African students and scholars and those interested in applied language issues.

Babcock, 2011-07-15 The Engaged University is a comprehensive empirical account of the global civic engagement movement in higher education. In universities around the world something extraordinary is underway. Mobilizing their human and intellectual resources, institutions of higher education are directly tackling community problems, combating poverty.

improving public health and restoring environmental quality This book documents and analyzes this exciting trend through studies of civic engagement and social responsibility at twenty institutions worldwide This timely volume offers three special contributions to the literature on higher education policy and practice a historical overview of the founding purposes of universities which almost invariably included a context specific element of social purpose together with a survey of how these founding intentions have fared in different systems of higher education a contemporary account of the policy and practice of universities all over the world seeking to re engage with this social purpose and an overview of generic issues which emerge for the engaged university
