Additionally it brings extra costs to the company in terms of hiring trained staff organising continuous training in the company publishing sustainability reports and subscribing to a rating system Sustainability must be nourished by a company's board as well as by all of its departments such as accounting marketing and human resources By the same token it is not enough for a company simply to declare itself a sustainable business or rely on past measures and reputation sustainability is an ongoing activity and one which has to be proved by periodically disclosing sustainability reports according to international rating systems In *Sustainability and Management An International Perspective* K ymet al yurt and lk Y ksel bring together international authors from a variety of specialisations to discuss the development aspects problems roadmap trends and disclosure systems for sustainability in management The result is a lively insightful exposition of the field Subject Guide to Books in Print ,1997 *Strategic Corporate Social Responsibility in Malaysia* Rusnah Muhamad,Noor Akma Mohd Salleh,2019-01-14 To fully comprehend corporate social responsibility CSR corporations must understand the many sided nature of CSR This book provides insight into the theoretical foundation beliefs and expectations of the multiple stakeholders the governance of CSR commitment and corporations strategies associated with the design development implementation and communication strategies for CSR through the case study on Malaysia The book also explains why corporations should pursue a dual economic and social function and why it being critical to an organisation's success It also describes the CSR trends and influences such as sustainability and globalisation on the future of CSR Forthcoming Books Rose Arny,2004
