

The diagram is a complex electrical schematic for a ship's system. It features a central horizontal busbar with numerous connection points. Above this busbar, there are several rows of circular components, likely pumps or valves, each with its own set of control wires and switches. To the left, a vertical column of components is labeled with various codes and numbers. Below the central busbar, there are more rows of circular components, some of which are labeled 'PUMP' and 'VALVE'. The entire system is interconnected by a dense network of lines representing electrical wiring. The diagram is oriented horizontally, with the main components arranged in rows and columns.
