Care and the City Angelika Gabauer, Sabine Knierbein, Nir Cohen, Henrik Lebuhn, Kim Trogal, Tihomir Viderman, Tigran Haas, 2021-10-24 Care and the City is a cross disciplinary collection of chapters examining urban social spaces in which caring and uncaring practices intersect and shape people's everyday lives. While asking how care and uncare are embedded in the urban condition the book focuses on inequalities in caring relations and the ways they are acknowledged, reproduced and overcome in various spaces, discourses and practices. This book provides a pathway for urban scholars to start engaging with approaches to conceptualize care in the city through a critical reflexive analysis of processes of urbanization. It pursues a systematic integration of empirical, methodological, theoretical and ethical approaches to care in urban studies while overcoming a crisis centered reading of care and the related ambivalences in care debates, practices and spaces. These strands are elaborated via a conceptual framework of care and situated within broader theoretical debates on cities, urbanization and urban development with detailed case studies from Europe, the Americas and Asia. By establishing links to various fields of knowledge this book seeks to systematically introduce debates on care to the interconnecting fields of urban studies, planning theory and related disciplines for the first time.

Cognitive Behavioral Therapy in a Global Context Mark D. Terjesen, Kristene A. Doyle, 2022-10-25 This book presents a new approach to understanding the history and practice of cognitive behavior therapy by presenting country profiles in 38 countries located around the world. The objectives of this edited volume are to provide a broad understanding of the practice of CBT internationally as well as country specific practices that will provide researchers and practitioners with important information for consideration in the application of CBT. The book begins with an introductory chapter by the editors that discusses the history of CBT and the efforts to globalize and disseminate the science and practice of CBT as well as the unique cultural and international variables. The subsequent chapters offer detailed country profiles of the history and practice of CBT from around the globe. More specifically, chapters will provide an overview of the country's history of psychotherapy, current regulations regarding psychotherapy provision, professional and cognitive behavior therapy organizations, training opportunities, programs in CBT populations, most frequently worked with using CBT in the country, the use and adaptation of CBT, the research on CBT in the country, and CBT with special populations (children, immigrants, HIV, etc.). Many of the nations represented are the most populous and influential ones in their respective regions where CBT has been incorporated into psychotherapy training and practice. Taken as a whole, the countries are quite diverse in terms of sociocultural, economic and political conditions and the impact of these variables on the practice of CBT in the country will be discussed. The final chapter of the volume offers a summary of the patterns of practice, integrating the main findings and challenges and discussing them within a global context. A discussion of the vision for next steps in the globalization of CBT concludes the book.
