**Alternative Salvations** Hannah Bacon,2015    **Alternative Salvations** Hannah Bacon,Wendy Dossett,Steve Knowles,2015-12-17 By considering transformative ideas and experiences which are explicitly articulated or implicitly structured in languages of religion and spirituality Alternative Salvations probes concepts including religious secular spiritual post Christian and post secular providing a series of studies which question the functionality of these broad categories Part one draws on contemporary salvation narratives showing how current cultural forms social practices and secular discourses are influenced by or are interpreted through the lens of religious and theological accounts of salvation Examples include twelve step recovery programs drug culture and public policy surrounding HIV AIDS in Kenya Although outside traditional religious contexts the contributors show ways in which they are not free from religious symbolism Part two explores alternative accounts of salvation rooted in religious traditions Established orthodoxies are confronted by contemporary critical questions for example about gender the status of animals and the political dimensions of salvation By contributing new perspectives and unique case studies Alternative Salvations provides a deliberate challenge to easy binaries which often underpin contemporary and traditional discourses of salvation    *Theologically Engaged Anthropology* J.

Derrick Lemons,2018-08-23 After years of discussion within the field of anthropology concerning how to properly engage with theology a growing number of anthropologists now want to engage with theology as a counterpart in ethnographic dialogue Theologically Engaged Anthropology focuses on the theological history of anthropology illuminating deeply held theological assumptions that humans make about the nature of reality and illustrating how these theological assumptions manifest themselves in society This volume brings together leading anthropologists and theologians to consider what theology can contribute to cultural anthropology and ethnography It provides anthropologists and theologians with a rationale and framework for using theology in anthropological research

**Female Faith Practices** Nicola Slee,Dawn Llewellyn,Kim Wasey,Lindsey Taylor-Guthartz,2023-08-01 This book explores female faith practices drawing on qualitative research to consider how women navigate and create spiritual and religious practices The chapters cover Christian Muslim Jewish and Buddhist contexts as well as newer spiritual movements The contributors examine prayer and ritual practices and familial educational and ritual spaces and relationships in a variety of cultural settings The volume reflects on the ways in which women subvert traditional or patriarchal religious practices and spaces both problematising and expanding existing notions of religious practice It also touches on research itself as a form of spiritual and academic practice considering ways in which women challenge androcentric modes of research as well as ways in which the subject of research in this case female faith may challenge the researcher s convictions and practice Blending case studies with empirical research this book will be an outstanding resource to theologians and researchers interested in Practical Theology Gender Studies Sociology of Religion and Anthropology
