the subject Economics International Economic Relations grade 1 3 New York University Leonard N Stern School of business language English abstract The paper focuses on strategic issues of the management of Netflix in India pointing to the following key question How can the company adapt its business model to gain a foothold in the Indian market Should the company conduct acquisitions to deal with the situations Or should Netflix exit India and shift focus to other global markets instead Netflix a leading American online media streaming and production company expanded successfully across the globe in the 2010s However in India a very important market for Netflix due to its large population and strong demand for video streaming Netflix seems to be struggling Dominant competitors and specific customer requirements have made growth difficult for the firm In this case both Netflix and the Indian video streaming market are analyzed with several strategic options are compared The team of authors recommends purchasing local studios and production houses so that Netflix can continue to pursue its verticalization strategy and meet local consumer demands We also suggest Netflix adapt its price to appeal to more users as Indian users are generally more price sensitive While it might dilute Netflix premium brand we believe such risk can be mitigated by adopting a more bare bones lower cost subscription targeting the large number of Indian consumers who use their smartphones to access the internet The development of TV usage in the Netherlands from 1980 until the near future Karen Hochmuth,2018-12-06 Essay from the year 2018 in the subject Communications Mass Media grade 1 0 University of Deusto language English abstract In the Netherlands fourteen million people out of a population of sixteen million have access to a television In 2017 the number of people who made use of this medium sank about 3% in comparison to 2016 This means that last year the Dutch watched TV around 178 minutes per day Television has been and still is an important medium for advertising information and entertainment But what is its role now what was it 30 years ago and what will the future hold The attention lays on how the consumption of TV shows and channels in the Netherlands is developing and what the current key points within this medium are What are the risks chances and opportunities and what are the alternatives that the television as a medium is facing Thus the past present and future of TV usage will be the guideline of this paper How streaming services are revolutionizing the TV market Max Schulz,2022-03-04 Bachelor Thesis from the year 2019 in the subject Communications Movies and Television language English abstract Almost everyone today uses streaming services like Netflix Amazon Prime and Co Viewers can watch what they want when they want and where they want This has far reaching consequences for our consumer behavior and poses serious challenges for traditional television Will linear television still play a role at all in the coming years How big is the competition from streaming portals already today In his paper Max Schulz explains how digitization has changed television and how the younger generation in particular is using the new offerings How does current user behavior affect the classic TV market and what new challenges does it pose Schulz also sheds light on television as a mass medium and thus an attractive advertising platform Among other things he reveals how traditional broadcasters are counteracting viewer migration
