Wowability Imran Syed, 2008-06-02 Wowability is no ordinary read. It stimulates the intellect into action and leads to a determination to exceed expectations. The concepts described in this book are the elements that will be required from all future businesses. Koichiro Naganuma, President and CEO Asatsu DK Inc. I was walking down the hallway of a client when I turned to my right and saw a redhead sitting behind a counter. Without thinking I said Wow and continued walking but several days later returned to the scene and struck up a conversation. After 40 years of marriage I still say Wow to the same redhead every once in a while. You never get a second chance to make a first impression. Imran Syed's book *Wowability* will help you make that first impression as memorable as possible. Al Ries, Author *The Origin of Brands*

Wowability is the first time an accomplished practitioner has usefully codified the complex emotional processes of consumer brand choice. At the very least Imran Syed has constructed the first practical algorithm for 21st century brand management. Over time Wowability will prove to be a landmark work and Imran the Maslow of our era. Andy Berlin, Chairman and CEO, Group United. In a marketplace filled with a stultifying array of brands, it is absolutely imperative that marketers exceed the expectations of their customers. In other words, WOW them. Imran Syed has created the user's manual for driving the modern-day brand. Every person responsible for driving the success of a brand today should keep a copy of Wowability: How to Achieve It, Why It Matters in the proverbial glove compartment. David Verklin, CEO, Carat Americas, Chairman, Carat Asia Pacific. The modern customer wants value for money. In this book, Imran Syed has provided a blueprint for how brands can offer value that exceeds expectations. Wowability. I strongly recommend this book to anyone who would like to take a mediocre brand into the high performance zone. WOW. Dr. H. Shanker Krishnan, Associate Professor of Marketing, Kelley School of Business, Indiana University.

Mobile Marketing Management, Hongbing Hua, 2019-03-18. With the development of mobile internet technology, people's lifestyle and consumer behavior are changing rapidly. Nowadays, the products on the market are updating more and more frequently, and the traditional marketing theory and brand theory fail to get with the mobile internet. So what's the innovative marketing to take in the new era? Since 2012, China has entered into the mobile era and became a major country of mobile internet application. The book summarizes the experience of the author accumulated from many trials and errors in management and marketing innovation so as to form the pattern of management and marketing for the next 30 years. Mobile Marketing Management lays the foundation for the new era with four pillars: service, substance, superuser, space, known as 4S theory for short. In view of the concept of customer first, it is all about service and products become productized service concepts. In view of the failure of mass communication, the competition among all services becomes the competition of substance differentiation. Regarding the popularity of self-organization, it becomes a trend to cooperate with people rather than the company to develop the market. In view of the principle of fuzzy market boundary, the enterprises shall optimize their living space and evolve their development space. This book contains numerous case studies along with analysis and creates the discipline of mobile marketing management, providing innovative theories, methods, and tools for the marketing of enterprises. Through this book, readers can master the marketing methods of the mobile internet era. They can apply the marketing theory in this book to guide the marketing practice, thus improving marketing efficiency and reducing marketing costs.
