**The Experimental Book Object** Sami Sjöberg,Mikko Keskinen,Arja Karhumaa,2023-11-30 The Experimental Book Object shows why and how books matter in the 21st century Digital and audio platforms are commonplace and other fields of art beyond literature have increasingly embraced books and publication as their medium of choice Nevertheless the manifold book object persists and continues to inspire various types of experimentation This volume sets forth an unprecedented approach where literary and media theory are entangled with design practitioners artistic research and process descriptions By probing the paradigm of the codex this collection of essays focuses on historical and contemporary experimentation that has challenged what books are and could be from the perspectives of materiality mediation and visual and typographic design Investigations into less studied areas and cases of performativity demonstrate what experimental books do by interacting with their systemic and cultural environments The volume offers a multifaceted and multidisciplinary view of the book object the book design and publishing processes and their significance in the digital age

[Alan Moore on His Work and Career](#) Bill Baker,2007-07-15 Interview with graphic

novelist Alan Moore    **Comics and the Senses** Ian Hague,2014-01-10 Attempts to define what comics are and explain how they work have not always been successful because they are premised upon the idea that comic strips comic books and graphic novels are inherently and almost exclusively visual This book challenges that premise and asserts that comics is not just a visual medium The book outlines the multisensory aspects of comics the visual audible tactile olfactory and gustatory elements of the medium It rejects a synaesthetic approach by which all the senses are engaged through visual stimuli and instead argues for a truly multisensory model by which the direct stimulation of the reader s physical senses can be understood A wide range of examples demonstrates how multisensory communication systems work in both commercial and more experimental contexts The book concludes with a case study that looks at the works of Alan Moore and indicates areas of interest that multisensory analysis can draw out but which are overlooked by more conventional approaches    *Unmaking*
