Notes on Creativity

• Inspiration is everywhere, we just capture it with the stroke of a pen.

• We can find it by viewing things from a different vantage point, gaining a new perspective.

• Looking for the extraordinary in the everyday.

• Try to look closer at a bridge, see the world with a pair of glasses with that focus on detail. By just taking time to look around, noticing the small details, the little subtleties, it gives us the ability to bring it up at the opportunity. When the world is a system, then we can see it in a way no one else can, only then can we provide an idea out of the norm. By using this combination of the moment to find my focus.

• We can see the world in a different way.

• We know you don't like your house now, so take another look before you leave.

• We welcome you to our little house hunting.

Amazon Kindle Free Days Gordon Owen @ iGO eBooks, 2014-12-10 A few years back when there was a huge demand for Kindle books with little competition and no restrictions put on sites by Amazon if you had the right kind of book it was possible to put it up on a free day with no promotion and get thousands of downloads At the time there were no verified purchase labels and no checks so lots of people were buying Fiverr ads that gave them 2 3 reviews for 5 This gave readers the impression that these books were well worth buying The Kindle devices had limited display features so the quality of the book formatting did not matter as much as it does today People had to download a sample to get a proper look at the book so in the case of a free book it was easier just downloading the whole thing than the possibility of virtually downloading it twice This book is one of more than 30 e Books in the genre subject matters of fundraising governance organisational ePublishing material series **HOW TO HACK AMAZON** JAVIER CLEMENTE ENGONGA AVOMO, A computer hacker is an expert in this case in computer science who uses his technical knowledge to achieve a goal or overcome an obstacle within a computer system by non standard means Writing a book or two a day is not a very standard means and when it becomes three or two or three hundred titles you start to take it seriously especially when you see the results and the results are obvious when you see the curve growing ever upwards It s only the beginning but a few months can define a lifetime as these last two years have been for humanity as a whole We have all learned that we are very different at the same time as we are similar in the
