Amazon Prime Avengers:

The Marvel Studios Story Charlie Wetzel, Stephanie Wetzel, 2020-05-26 What can you learn from the world's most successful companies? Marvel characters have been shaping pop culture for decades and when comic books were no longer keeping the company afloat, Marvel Studios was born. Marvel Studios is the multibillion-dollar home to iconic franchises. They are known for creating brilliant multilayered worlds and storylines that allow their audiences to escape into a fantasy and inspire the creative side of every viewer. But behind those visionaries is a well-oiled storytelling machine dedicated to getting the Hulk's smash fists in the hands of every child and a sea of Spiderman costumes deployed every Halloween. The Marvel Studios Story educates you on how one of the largest creative companies in the planetary universe runs their business and keeps their fans and their parent company Disney counting the profits. Through the story of Marvel Studios, you'll learn how to recognize and pursue additional revenue streams, how a company can successfully balance the creative with business to appease investors and fans alike, and how to keep a decades-old superhero franchise new and exciting without losing sight of its roots. The Marvel Studios Story will help you understand and adopt the competitive strategies, workplace culture, and daily business practices that enabled a struggling comic book publisher to parlay the power of myth and storytelling to become one of history's most successful movie studios.

Disney's Star Wars William Proctor, Richard McCulloch, 2019-07-01 In 2012, Disney purchased Lucasfilm, which meant it also inherited the beloved Star Wars franchise. This corporate marriage sent media critics and fans into a frenzy of speculation about what would happen next with the hugely popular series. Disney's Star Wars gathers twenty-one noted fan and media studies scholars from around the world to examine Disney's revival of the franchise. Covering the period from Disney's purchase through the release of *The Force Awakens*, the book reveals how fans anticipated, interpreted, and responded to the steady stream of production stories, gossip, marketing materials, merchandise, and other sources in the build-up to the movie's release. From fears that Princess Leia would be turned into a Disney princess to collaborative brand management, the authors explore the shifting relationship between fans, texts, and media industries in the context of a crucial rebranding campaign. The result is a fascinating examination of a critical moment in the iconic series' history.

Scarlett Johansson Kim R. Holston, Warren Hope, 2021-06-24 Despite her prominence as an actress, fashionista, social activist, and the sexiest woman in the world, Scarlett Johansson has kept her life private. Her work ethic has been strong since her film debut in *North* (1994) at age 10. Then in 2003, *Lost in Translation* brought kudos and launched her adult career. While she never abandoned the independents, Johansson became a leading lady in very big films, including eight outings as former Russian assassin Black Widow, thwarting alien incursions in *The Avengers* and other films in the Marvel Universe. This book surveys Johansson's life and films from childhood to her 2019 Academy Award nominations for *Jojo Rabbit* and *Marriage Story*. Each film entry includes a plot synopsis, extracts from contemporary reviews, behind-the-scenes information, and the author's analysis of the film. Looked at in depth are the three Woody Allen collaborations, her role as Black Widow, and the

films in which she becomes the other

Apocalypse and Heroism in Popular Culture Katherine E. Sugg, 2022-03-11 Stories of world ending catastrophe have featured prominently in film and television Zombie apocalypses climate disasters alien invasions global pandemics and dystopian world orders fill our screens typically with a singular figure or tenacious group tasked with saving or salvaging the world Why are stories of End Times crisis so popular with audiences And why is the hero so often a white man who overcomes personal struggles and major obstacles to lead humanity toward a restored future This book examines the familiar trope of the hero and the recasting of contemporary anxieties in films like The Walking Dead Snowpiercer and Mad Max Fury Road Some have familiar roots in Western cultural traditions yet many question popular assumptions about heroes and heroism to tell new and fascinating stories about race gender and society and the power of individuals to change the world

Visual Worldbuilding in Alan Moore and Dave Gibbons' Watchmen Dominik Seufer, 2023-12-07 Bachelor Thesis from the year 2023 in the subject English Language and Literature Studies Other grade 1 3 University of Stuttgart Institut f r Literaturwissenschaft Englische Literaturen course American Superhero Comics language English abstract The bachelor

thesis Visual Worldbuilding in Alan Moore and Dave Gibbons *Watchmen* takes a close look at graphic novel's visual motifs visual settings real world references It examines how they enhance the story's characters plot development and major themes It furthermore analyzes the graphic novel's high level of detail and meticulous world building through text and visuals From the Avengers of the Marvel Cinematic Universe through *The Boys* on Amazon Prime Video to the DC League of Super Pets today superheroes in any shape or form rule the entertainment industry Throughout the past few years movie programs and box offices around the world have been dominated by superhero movies countless seasons of superhero TV series have been binged by millions every week and innumerable superhero related merchandise items have been sold to children and adults alike Unfazed by a predominantly digitalized world even the superhero comic book and graphic novel industry has been steadily growing and is projected to continue doing so Comic Book Sales Historically there is one comic that is considered to have set the tone and pave the way for the genre's development and status of today Alan Moore and Dave Gibbons *Watchmen* a twelve issue limited series published monthly by DC Comics between 1986 and 1987 and merged later into a single graphic novel in 1987 According to the BBC the release of *Watchmen* was the moment comic books grew up and when the public's views on the art form changed Barber *Watchmen*'s status as a revolutionary piece of literature is further perpetuated in TIME magazine's list of the 100 best English language novels published since 1923 There *Watchmen* sticks out as the stand alone graphic novel being listed among literary classics such as *To Kill a Mockingbird* *The Great Gatsby* *Animal Farm* and *Lord of the Flies* Grossman In any case *Watchmen*'s spot on the list is justified because the graphic novel is not a classic good versus evil superhero versus villain comic story but rather a hybridity of genres that includes characteristics such as those of a murder mystery and detective story while incorporating elements of science fiction dystopian fiction and psychological realism Moreover writer Alan Moore created superhero characters that are not impeccable morally upright and two dimensional but rather three dimensional characters with flawed personalities and personal problems
